---

## ***WILDERNESS AREA WARNING***

---

### **You should be aware that this is a Wilderness Area.**

There are, among other things, wild animals native to this area. Among them are mountain lions, bobcats, coyotes, deer, raccoon, snakes, spiders, flies, ticks, ants, mosquitoes and mice. These animals are wild and **must be left alone**. We have had previous complaints about the presence of Bears in the area, but it turned out only to be someone who was an extraordinary snorer. However, on some evenings coyotes, frogs and crickets do serenade beautifully.

#### **DO NOT STORE FOOD OR TRASH IN YOUR TENTS!**

- Keep all food and items with a scent stored appropriately so as not to attract these animals.
- Some of the smaller animals (raccoon, mice) can get into tents, packs, clothes, shoes, food bags, and your trash.

#### **NO OPEN-TOE SHOES ALLOWED!**

- Wear appropriate shoes or you will be asked to change or leave the camp facility.
- Remember you will be walking/hiking and the terrain is uneven.
- You don't want to be bitten, stung or injured by anything.

#### **Be prepared to handle:**

- Seasonal Poison Oak and Stinging Nettles
- Seasonal Allergies
- Bee stings, mosquito/insect bites

#### **Changes in Weather:**

- Check the weather report for the dates of your stay and pack accordingly.
- While it may be warm and sunny during the day the temperature drops in the evening and can get cold.

---
