

WILDERNESS FIRST AID TRAINING

Wilderness First Aid is the assessment of, and treatment given to, an ill or injured person in a remote environment where definitive care of a physician and/or rapid transport is not readily available.

This course meets the Wilderness First Aid requirement for units trekking at national high adventure bases (Philmont, Sea Base, Northern Tier and The Summit) and for other backcountry outings. It is appropriate for Scouts and Scouters who want to become better prepared for emergencies. It also fulfills the core first aid requirement for requirement for the Venturing Ranger Award.

Sixteen Hours of Training—Two Year Certification

2025 COURSES

Session 1 –3 hr. Evening Zoom
