TEST LABS

WILDLAND FIRE MANAGEMENT

Troop 29 is offering a training opportunity to test the Wildland Fire Management Merit Badge from the National Council Test Labs. In this training Scouts can learn how to make homes, camps and their communities more resistant to wildfire. They can learn the natural role that fire plays in our nation's wildlands. Scouts will explore and consider careers in wildland fire management. At the end, Scouts will be able to review and recommend if this should become a merit badge in the future. If completed and approved by National Council, participants will receive the Merit Badge.

Class Dates:

May 10, 2025

May 17, 2025

Field day

May 18, 2025

(lunch provided)
