SUMMER CAMP 2024

OLD NORTH STATE COUNCIL - BSA

Creating a Culture of Safety

Scouts and their parents expect all Boy Scouts of America activities to be conducted safely. To ensure the safety of participants, the Boy Scouts of America expects leaders to use the four points of SAFE when delivering the Scouting program.

Adults in Camp (New for 2019)

- Must have 2 adult leaders in camp 21-years old or over in camp at all times.
- There must be a registered female adult leader 21 years of age or over in every unit serving females.
- To assist units with adult leader supervision – 2 adults from each unit may attend camp at no cost

Adults in Camp (New for 2022)

- Old North State Council Policy
- **Effective June 1, 2022**, any adult who spends at least one night while accompanying a Scouting unit to a long-term camp activity, sponsored by the Old North State Council or any of its agents, must be a registered member of the Boy Scouts of America with a completed criminal background check and unexpired Youth Protection Training certificate.
- Suggest you submit BSA adult leader applications by April 1
- Verified through the Unit Aging Report submitted during the 12-day-out meeting

AlertMedia

- Internet-based Mass Communication Tool
- Allows for communication to multiple stakeholders
 - Adult Leaders
 - Scouts
 - Staff
 - Family members back home

AlertMedia

- Broadcast Alerts – Send one-way messages with important information
- Read Confirmation Alerts - see who has received alerts immediately
- Surveys – Confirm status and engage campers with two-way communication features

The image displays two overlapping screenshots of the AlertMedia mobile application. The background screenshot shows the 'Create Notification' screen with three steps: 1. 'What type of notification is this?' with options for Notification, Read Confirmation, Survey, and Conference Call; 2. 'How would you like to send?' with options for Text, App, Voice, Email, and WhatsApp; 3. 'What message do you want to send?' with a text input field containing a fire alert message. The foreground screenshot shows the 'Notification Details' screen for a notification titled 'Fire Reported in Main Office' sent by 'Globex Team Admin' on 'Mar 18, 7:00 AM'. It includes the same fire alert message and a 'Survey Responses' section with four options: 'NOT SAFE - still in building', 'NEED HELP - out of building', 'SAFE - out of building' (which is selected with a blue checkmark), and 'SAFE - not in office today'.
