

**2025 Klondike Sled and Health & Safety Inspection (Prior Years Not Valid!)**

---

**Patrol Leader Completes this Section in Pen, Legibly Please (No Pencils or Magic Markers!)**

**UNIT Number (Add -B for Boy Troop or -G for Girl Troop):** \_\_\_\_\_

**PATROL NAME (NO CHANGES FROM PRE-REGISTRATION!):** \_\_\_\_\_

**PATROL LEADER'S NAME:** \_\_\_\_\_ **CELL #** \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_

**If the Patrol Has a Second Cell Phone, Enter the Number Here:** \_\_\_\_\_ - \_\_\_\_\_ - \_\_\_\_\_

---

**Registrar Completes this Section – – – Circle One:**      **IDITAROD**      **YUKON QUEST**

**PATROL LEADER MUST SHOW THAT HE/SHE HAS THE 2025 KLONDIKE EMERGENCY NUMBER ENTERED INTO THEIR PHONE (917-439-7114). IF THE PATROL HAS NO CELL PHONE(S), CHECK HERE:** \_\_\_\_\_

**\_\_\_\_\_ 1 REPORTED ON TIME AND PRESENTED 1<sup>ST</sup> TOLL (See Page 2 for Firewood Specifications!)**

---

**Inspector Completes this Section (See Page 2 for More Exact Specifications!)**

**\_\_\_\_\_ 2 ALL SCOUTS WEARING BOOTS AND PROPER ATTIRE; ALL HAVE ADEQUATE DRINKS AND LUNCH**

**\_\_\_\_\_ 3 SLED MEETS APPEARANCE REQS, W/ FULL-LENGTH SKI RUNNERS, SMALL LOOP HANDHOLDS ONLY ON THEIR TOW-ROPE(S), WITH A KITCHEN-SIZED GARBAGE BAG VISIBLY HANGING ON THE SLED FRAME**

**\_\_\_\_\_ 4 IF CARRIED, HATCHET AND/OR BOWSAW IN PROTECTIVE SHEATHS**

**\_\_\_\_\_ 5 SLED IS CARRYING FIVE MORE "PROPER" FIREWOOD TOLLS (ONE FOR EACH TOWN)**

**\_\_\_\_\_ 6 GENUINE PATROL FIRST AID KIT; SPACE BLANKET; AND EMERGENCY TARP (MINIMUM 100 SF)**

**TOTAL NUGGETS:** \_\_\_\_\_ **INSPECTOR INITIALS:** \_\_\_\_\_ **PASSPORT MARKED?** \_\_\_\_\_

## SPECIFICATIONS:

**Each Firewood Toll Must** be a Store-Bought, Kiln-Dried Log (minimum 3 – 4” in diameter x 15” in length) or Three 15” 2x4s (Not Pressure Treated!); NO “HOME” OR “TRAIL-FOUND” FIREWOOD IS ALLOWED!

**Boots are Required.** Sneakers, Crocs, Sandals, etc, are not boots. The trails are rugged, rocky, covered with debris, and may be wet/slushy/muddy. Low-top boots are *not recommended* in poor conditions.

**Proper Attire** means **Adequate in the Inspector’s Judgement** to handle the expected conditions. This includes rain gear if rain/snow is occurring or is expected, and layers appropriate to the temperatures.

**Adequate drinks** mean 1 Liter minimum per Scout – 2 Liters if temperatures above 50 degrees are expected. Patrols must not expect water being available at the towns. Each Scout must have a lunch.

**Sleds** must be Scout-built (no commercial sleds, toboggans, or wagons) and look roughly similar to an actual Klondike sled (see the Patrol Leader’s Guide for numerous examples), and **must** have full-length skis or bent wood runners “hard-attached” (i.e., screwed) to the bottom of the sled, regardless of any snow cover. As snow is infrequent, *removable wheels are very highly recommended*. Tow ropes must have small loop hand-holds **only** – a giant U-loop or knotted ropes for pulling are hazardous and are not permitted. One or two tow ropes are recommended, with a minimum of four loop hand-holds total.

**Hatchets and Bowsaws** are *Optional* Equipment; if carried, however, they must be in protective sheaths.

**First Aid Kit** – A “real” kit (not just a couple of bandaids) must be carried. The kit should be able to handle routine cuts, scrapes, bruises, thorn scratches/punctures, sprained ankles, etc. Patrols do not need to carry a huge kit, as help is available via cell phone (call the emergency #) or at the closest town.

**Emergency Tarp** must be a minimum of 100 square feet w/ grommets to erect a “lean-to” style shelter.
