

Scuba BSA

Sunday
June 10, 2018

Camp William B. Snyder Pool

Scuba BSA introduces participants to the special skills, equipment, and safety precautions associated with scuba diving, encourages aquatics activities that promote fitness and recreation, and provides a foundation for those who later will participate in more advanced underwater activities.

The Scuba BSA experience contains two parts— Knowledge Development and Water Skills Development. During the first part, participants learn basic dive safety information and overview skills to be used during their water experience. The Water Skills Development session introduces essential dive skills, such as mask clearing, regulator clearing, and alternate air source use.

This is an introductory, try-it scuba experience. It does not result in certification for diving on your own. It is not the BSA Scuba Diving merit badge. Many people decide to go on and take a certification course after trying scuba.

The 1.5 hour Scuba BSA sessions start at 1, 2:30, and 4pm. This is for any scout -aged youth or adult. Maximum of 8 participants per one hour session. Preregistration is required since each participant must complete a medical questionnaire. Cost is \$25 per person. Registration deadline is June 4. A scuba medical statement (available at <http://www.scouting.org/filestore/HealthSafety/pdf/padi.pdf>) will need to be completed for this activity. Completion of the form *may* require a physician's approval.

All you need to bring is your swimsuit and a towel!

Registration is available on www.ncacbsa.org/aquatics
