Earth Day aligns with Scouting's Outdoor Code which promotes the idea of respecting & protecting the natural environment by encouraging responsible behavior outdoors. This includes "being clean in your outdoor manners, careful with fire, considerate of others, & conservation-minded" It is essentially leaving no trace & minimizing impact on the land & wildlife making this a great combination to enjoy the outdoors while learning to take the greatest of care of it! We are planning activities & special guests so mark your calendars & spread the word to the all the Cub Scouts/Scouters you know! Take part in all that is offered OR just the parts you choose! What is Wood Badge?

Reflecting the best of nearly a century of Scouting experience, Wood Badge draws upon the most current leadership models used by corporate America, academic circles, and successful organizations throughout the country. Wood Badge training was begun by Baden Powell in 1919 as a way to ensure that the leaders of Scout troops were properly trained. Since then, Wood Badge has been held worldwide, providing advanced leadership training to thousands of Scout leaders. Wood Badge builds upon the best traditions and experiences

Who should attend Wood Badge?

Wood Badge is designed to meet the advanced leadership needs of all Scouters, particularly unit level Scouters, such as Cub leaders, Scoutmasters and assistants, Venturing Crew Advisors, Committee Chairs, and members. Additionally, Scouters serving at the district and council levels can achieve greater effectiveness through Wood Badge.

Why attend?

By taking Wood Badge, Scouters will acquire valuable tools such as listening, communicating, conflict management, project planning, and leading change. Participants will better learn to understand and appreciate diversity and differences in our society. They will learn skills that will make them a better Scout leader. Units with trained leaders are able to deliver an improved program and a more meaningful experience for our Scouting youth!
