LIGHTNING ALARM PLAN OF ACTION

Florida is the lightning capital of the world and represents a hazard that all should be made keenly aware. This plan has been developed for the use of Scouts, called “Thor Guard” for the Dr. Phillips Park Area. The system senses lightning within a predetermined safety zone then sounds an alert.

PLEASE FOLLOW STAFF INSTRUCTIONS DURING A LIGHTNING ALERT RED

Alert Red

You will hear one fifteen (15) second blast of the air horns. This alarm means that lightning is close and you need to seek appropriate shelter where you should **remain until given the all clear signal**. Safe shelter locations include:

Locations

All Program Areas
All Campsites

Safe Shelters

W. T. Bland Dining Hall
Campsite Activity Shelters

All Clear

You will hear three (3), five (5) second blasts of the air horn. The area should now be considered safe and you may proceed but still be cautious of dangerous weather as it still may be near the camp.

Camp Wide Emergency

In the event there is a camp wide emergency a wailing (air raid) siren will sound. If you hear this siren, please proceed to the following: report to Seneff Plaza Flag Pole. Line up with your unit, take roll call, have your SPL report to the Camp Commissioner that your unit is accounted for, and wait for further instructions from the Camp Staff. Everyone, youth and adults, must report to the designated area during a camp wide emergency alarm unless instructed otherwise by the camp staff. The entire camp will have an opportunity to practice these procedures during your stay at camp.
