## Camp Roper Information

The camp offers a quiet, natural setting surrounded by water and wetlands, giving it a secluded feel despite its proximity to major roads. The camp has the capacity to serve 6-8 units (100-150 campers).

Camp Roper offers primitive tent sites, fire rings and trails; parking is limited to the entrance requiring a hike to campsites. Campers must bring all supplies, as water is limited and restrooms are primitive.

It is commonly used for campouts, wilderness survival training, merit badge activities, and conservation service projects.
