

GOLF CART/UTV POLICIES- CAMP LA-NO-CHE

Golf Carts/UTV's at Camp La-No-Che are important for transportation between campsites and program areas. They also make camp accessible to those with mobility challenges or for handicap accessibility. While a golf cart/UTV greatly assists in the performance of these camp tasks, and many others it should never take away from our focus on conservation and safety. Camp is within a conservation area and it is important that we do our part to protect nature and our surroundings. Safety also remains a main priority for our BSA Membership and visitors to camp. Therefore, the following policies have been set to control the safe use of this impactful tool while at Camp La-No-Che. Thank you for your assistance by following this Golf Cart/UTV Policy.

GOLF CART POLICY:

1. Golf Cart/UTVs are to be used only on main roads between campsites and program areas for mobility issues only.
