Important App Notes

- Very intuitive, built by an Eagle Scout!!
- Access is by email used to register for the event.
- Access can be granted to Scouts/other adults that have been registered through another “secondary” email. You just need the email and login password...nothing is sent to that email for verification or authentication.
- It is 100% usable at this point in time but will be finalized the week of the event once we close registration and finalize last minute event changes, digital event program, individual schedules, and more.
- Please allow push notifications for the app so you can get real time updates on the event both before and at the event.
- QR code will be at the BOTTOM of their individual schedule. There is also one at the TOP of their schedule but that isn't tied to the app.
- Full tutorial and video on at https://scoutingevent.com/162-2024_UofSPurdue
