

Partners with:

Hands-on Planting Event

All necessary equipment will be provided

(wear clothes you don't mind getting dirty)

What You'll Learn:

What are Rain Gardens?

Partner with Purdue Engineering students to learn about rain gardens and how they function

Why Native Plants?

Learn the importance of native plants in keeping our waterways healthy.

More behind the scenes!

An Environmental and Ecological Engineering course is partnering with the City of Lafayette Parks and Recreation to design and install rain gardens to help improve the water quality of the Wabash River.
