2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

2025 Fall U of S Adult Classes (Scheduled Classes)

25FA11	9-10 AM		Best Methods for Boards of Review You have to do them, but how do you do it? Come learn some best methods on how to conduct non-Eagle Scout Boards of Review Maximum number of participants: 180
WALC 1018			
Diane Carman			
25FA1	9-10 AM		Cold Weather Camping Cold weather camping requires specific preparation to stay warm and safe. This includes choosing the right gear, layering clothing, and understanding how to manage condensation and potential hazards. Come learn some tips and tricks on how to BE PREPARED for the cold! Maximum number of participants: 108
WALC 1132			
Jake Mitchell			
25FA6	9-4 PM		CPR/First Aid Training The course trains participants with the knowledge and skills needed to provide professional-level care for breathing and cardiac emergencies for adults, children, and infants until advanced emergency medical services (EMS) professionals take over. Max of 9 participants per class. Maximum number of participants: 9
WALC 3148			
Tesha Hardy			
25FA13	9-11 AM		How to Navigate 1 Class to Eagle! Navigating 1st Class to Eagle: Leadership Positions, Eagle Projects, Youth Leadership Best Methods, Eagle Scout Process, Paperwork, and more! Open to Leaders and Parents and Scouts who are already 1st Class or above. Maximum number of participants: 40
WALC 3132			
Bryan Shaffer			
25FA12	9-10 AM		Order of the Arrow and My Troop and OA Troop Representative Program and Unit of Excellence; What Is it and how can I start? For over 100 years, the Order of the Arrow (OA) has recognized Scouts and Scouters who best exemplify the Scout Oath and Law in their daily lives. This recognition provides encouragement for others to live these ideals as well. Arrowmen are known for maintaining camping traditions and spirit, promoting year-round and long term resident camping, and providing cheerful service to others. OA service, activities, adventures, and training for youth and adults are models of quality leadership development and programming that enrich and help to extend Scouting to America's youth. Come learn how to maximize the OA in your Troop in this back to back class chalked full of OA knowledge. Maximum number of participants: 50
WALC 3154			
Lucas Bowman			
25FA2	9-11 AM		QPR (Question, Persuade, Refer) Suicide Prevention Training provided by Mental Health America Three steps anyone can learn to help prevent suicide. Just like CPR, QPR is an emergency response to someone in crisis and can save lives. The QPR mission is to save lives and reduce suicidal behaviors by providing innovative, practical and proven suicide prevention training. We believe that quality education empowers all people, regardless of their background, to make a positive difference in the life of someone they know. 2-hour course. (70-person max capacity) Maximum number of participants: 60
WALC 3090			
Woody Berentes

Scoutmaster/Assistant Scoutmaster Leader Training (full day session)

The purpose of Scoutmaster Position-Specific training is to provide an active, fun, and positive learning experience for new and experienced Scoutmasters to learn and apply proven techniques for running an effective Scouts BSA troop. Scoutmasters will learn how to meet the aims of Scouting by applying the eight methods of the Boy Scouting program during the four main sessions of the course: • Patrol Method • Support Team • Advancement • Annual Planning
Maximum number of participants: 45

25FA8 10-11 AM
WALC 3154
Tony Zizak

Adults Can Have Fun Too

Ever wonder how other troops have so many parents involved especially on campouts. You hear how some troops have all kinds of parent involvement on committees, boards of review but your unit is struggling with the same 2-3 adults doing everything? Can you hear the laughing going on in the next campsite and wonder how you can have more of that in your unit? Well, it's easier than you think. Adults are allowed to have fun in scouts too! Join us in a lively and fun discussion on the art of bringing the fun for adults in your scout units. PS... this also works for recruiting adults for district and council level events. Some quick and fun steps to immediately take to put your troop on the right path for a strong adult leadership core.
The long play on building out a strong adult leadership core.
Why role assignments are needed
The art of delegation and building of trust
Finally some open discussion and examples of what has worked for others.
Maximum number of participants: 50

Scoutbook: How Can We Use it in Our Unit?

There is nothing more rewarding than helping Scouts through their Scouting journey and down the path to success. But sometimes the act of leading can get lost in the act of reporting, limiting the amount of time actually spent with Scouts. Scoutbook provides access to valuable tools and resources that will help with the day-to-day management of a unit, giving every leader more of what they need most: TIME. With Scoutbook you can create customizable calendar of events, send text messaging alerts to Scouts and parents, easily access trainings and leadership resources... and so much more! Come learn how to utilize this amazing tool!

Maximum number of participants: 60

2025 Fall U of S Merit Badge Classes (Scheduled Classes)

25FM1 9-12 PM
ARMS 3109
Sanford Swanson

American Business

Earning the 'American Business merit badge can help Scouts learn practical business matters that will be useful throughout life. Learning how businesses function will help you understand society and uncover a number of career options.

Maximum number of participants: 15

Prerequisites: Prerequisite: 5

25FM3 9-4 PM
BHEE 226
Chris Cordray

American Heritage

Every Scout swears to an oath that includes duty to his country. A better understanding of American heritage, the ways in which the past has lead to our present nation, is key to truly knowing what it means to be an American.

Maximum number of participants: 15

Prerequisites: Prerequisite: 3(c)

25FM5 9-12 PM
ARMS 1103
Amber Brad

Animal Science

Cattle, horses, sheep, goats, hogs, poultry, and other domesticated animals are important to people for many reasons. They supply us with food and clothing, we use them for recreational purposes, they work with and for us.

Maximum number of participants: 15

Prerequisites: No Prerequisites

25FM7 9-4 PM
STON 154
Dr. Kory Cooper

Archaeology

Archaeologists are detectives who study how people lived in the past. They figure out what happened, when, how, and why. Using the clues that people left behind, they try to understand how and why human culture has changed through time.

Maximum number of participants: 15

Prerequisites: Prerequisites: One of Req 7. Note: Some of the requirements for the Archaeology badge cannot be performed in a single day. During the session, several of the items that would be difficult for scouts to accomplish out on their own will be discussed for ideas on how to complete the badge.

NOTE: This class is taught by Dr. Kory Cooper and Dr. Michele Buzon

25FM8 9-2 PM
Camp Buffalo
Argent Rattray

Archery

Archery is a fun way for Scouts to exercise minds as well as bodies, developing a steady hand, a good eye, and a disciplined mind. This merit badge can provide a thorough introduction to those who are new to the bow and arrow - but even for the experienced archer, earning the badge can help to increase the understanding and appreciation of archery.

Maximum number of participants: 8

Prerequisites: No Prerequisites

This class is taught offsite at Camp Buffalo, 9400 N Boy Scout Rd, Monticello, IN 47960 (Approximately 1 hour away from the Purdue campus)

Class times are: 9 AM-1 PM (Session 1) and 2-6 PM (Session 2)

NOTE: This class is taught offsite at Camp Buffalo, 9400 N Boy Scout Rd, Monticello, IN 47960

Art

This merit badge concentrates on two-dimensional art, specifically drawing and painting in various media, including an introduction to design applications in the fields of graphic arts and industrial design, history and design principles, and how these fields relate to fine art

Maximum number of participants: 10

Prerequisites: No Prerequisites

25FM11 9-4 PM
BRNG B232
George Wyncot

Astronomy

In learning about astronomy, Scouts study how activities in space affect our own planet and bear witness to the wonders of the night sky: the nebulae, or giant clouds of gas and dust where new stars are born; old stars dying and exploding; meteor showers and shooting stars; the moon, planets, and a dazzling array of stars.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4. Do the following (if instruction is done in a planetarium, Scouts must still identify the required stars and constellations outside under the natural night sky):

(a) Identify in the sky 10 constellations, at least four of which are in the zodiac.

(b) Identify in the sky eight conspicuous stars, five of which are of magnitude 1 or brighter.

(c) Make two sketches of the Big Dipper or Cassiopeia from direct observation. In one sketch, show the Big Dipper's or Cassiopeia's orientation in the early evening sky. Make another sketch, showing its position several hours later. In both sketches, show the North Star and the horizon. Record the date and time each sketch was made.

(d) Explain what we see when we look at the Milky Way.

5(b) Using the Internet (with your parent or guardian's permission) and other resources, find out when each of the five most visible planets that you identified in requirement 5a will be observable in the evening sky during the next 12 months, then compile this information in the form of a chart or table.

6(b) Sketch the phase and position of the Moon, at the same hour and place, for four nights (or days) within a one-week period by direct observation. Include landmarks on the horizon such as hills, trees, and buildings. Explain the changes you observe.

9. Do ONE of the following:

(a) Identify three career opportunities that would use skills and knowledge in astronomy. Pick one and research the training, education, certification requirements, experience, and expenses associated with entering the field. Research the prospects for employment, starting salary, advancement opportunities and career goals associated with this career. Discuss what you learned with your counselor and whether you might be interested in this career.

(b) Identify how you might use the skills and knowledge in astronomy to pursue a personal hobby. Research the additional training required, expenses, and affiliation with organizations that would help you maximize the enjoyment and benefit you might gain from it. Discuss what you learned with your counselor and share what short-term and long-term goals you might have if you pursued this."

25FM147 9-4 PM
HAMP 1113
Johnny Klemme

Auctioneering

The Auctioneering Badge is a dynamic blend of public speaking and salesmanship that offers Scouts the opportunity to develop essential communication and persuasion skills. Scouts will learn about the history of auctioneering, develop presentation techniques, and build rapport with an audience. They'll engage in mock auctions to practice creating demand and closing deals while also learning how to handle challenges and uphold ethical standards. This badge fosters confidence and critical thinking skills that are powerful tools for personal growth, leadership roles, and future success.

Maximum number of participants: 15

Prerequisites: No Prerequisites

What is the Test Lab?

The Scouts BSA Test Lab is an exciting way to help in the development of fun and

Class Catalog

2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

interesting new topics unique to the Scouts BSA program. The requirements for each badge have the look and feel of merit badges, but instead of a printed pamphlet, you will find links to digital resources to help you complete the requirements.

What to do:

You must work with a registered adult volunteer of your choosing. After completion of all requirements, you must take a short survey which will lead you to a certificate of completion.

If enough surveys show Scouts enjoyed these potential new badges, we hope to introduce them as official merit badges in the future. If you complete a Test Lab badge and it becomes an official merit badge, you will be credited with having earned that badge!

Keep logging in to this page to see what new topics are added as each badge will have a test lab expiration date.

Test Lab Rules:

1. Any registered adult can work with Scouts on these potential new badges.
2. Badges will have a clearly stated time period by which all requirements must be completed.
3. After the expiration date, the badge will be removed from the Test Lab and the National Council will evaluate if the subject should be added as a new merit badge.
4. When all requirements are finished successfully, a survey will be available to gather opinions on the badge. Scouts will then be able to access the certificate of completion which must be signed and dated by the registered adult they have worked with.
5. Should the badge be approved as a new merit badge, Scouts can be credited as having earned that badge if they present their signed and dated certificate to their unit.
6. Scouts completing the requirements after the expired time period will not be recognized as having earned the badge.

Automotive Maintenance

Modern automobiles are important to many aspects of American life. Those who service automobiles must understand each principle, and how these principles interact to provide smooth, efficient performance. Owners of cars also benefit by understanding how their vehicles operate. This enables them to understand why certain periodic maintenance is required to keep their vehicles in tip-top shape.

Maximum number of participants: 15

Prerequisites: Requirements 1(g), 12

This class is taught offsite at Guaranteed Automotive and Transmission, 3742 State Rte 38, Lafayette, IN 47905

Aviation

For most of history, people have dreamed of flying, imagining how it would feel to soar through the sky like an eagle or hover in midair like a hummingbird, to float on unseen currents, free of Earth's constant tug, able to travel great distances and to rise above any obstacle. Today, through aviation, we can not only join the birds but also fly farther, faster, and higher than they ever could.

Maximum number of participants: 20

Prerequisites: Prerequisites: 3B (provide link to Digital Content: <https://www.scouting.org/skills/merit-badges/digital-resource-guides/aviation/>)

This class is taught offsite at the Purdue Airport, 1585 Aviation Dr, West Lafayette, IN 47907

Backpacking & Hiking Combo

Earning the Backpacking merit badge will be demanding but rewarding. Scouts will learn what equipment to carry on their backs and what knowledge to have in their heads. In addition, Scouts will discover how to protect the environment by traveling and camping without leaving a trace. By mastering the basics of backpacking, Scouts will develop an even deeper respect for the outdoors.

Hiking is a terrific way to keep your body and mind in top shape, both now and for a lifetime. Walking packs power into your legs and makes your heart and lungs healthy and strong. Exploring the outdoors challenges you with discoveries and new ideas. Your senses will improve as you use your eyes and ears to gather information along the way.

Maximum number of participants: 15

Prerequisites: Prerequisites:

Backpacking: Ideally Requirements 9-11 are to be completed after the workshop, however they may be done in advance as a pre-requisites provided they fulfill the requirements as written. Scouts should complete Requirements 6b, 8b, 8c, 8d prior to the workshop.

Hiking: Ideally Requirements 3 and 4 are to be completed after the workshop, however they may be done in advance as a pre-requisites provided they fulfill the requirements as written. The required hikes for this badge may be used in fulfilling hiking requirements for rank advancement. However, these hikes cannot be used to fulfill requirements of other merit badges."

Basketry

Basketry is a handy skill for a Scout. A basket can be a sturdy companion on campouts, carrying clothes snugly and efficiently, holding potatoes and corn for roasting over a campfire, or carrying the day's fishing catch back to camp for dinner. Baskets and basket-weaving projects also make great gifts for family and friends.

Crime Trio

Preventing crime, which can be as simple as reducing the opportunities for crime to occur, is far less costly than apprehending and bringing legal action against those who break the law and it helps save people from the anguish of being victims.

In earning the Fingerprinting merit badge, Scouts will learn about and use an important technique that is used by law enforcement officers, along with other materials like matching dental records and DNA sampling, to help identify amnesia victims, missing persons, abducted children, and others.

Staying safe in traffic wherever you live is getting more difficult all the time, as more and more people take to the road. Earning the Traffic Safety merit badge and will give Scouts some crucial tools to stay safer, when driving a car on a highway, riding a bike across town, or jogging across a busy street.

Maximum number of participants: 15

Prerequisites: Prerequisites:
Crime Prevention: 3(a) and 4(b)
Fingerprinting: 1
Traffic Safety: None

Cycling

Since 1911, hundreds of thousands of Scouts have made the most of their two-wheel adventures by earning the Cycling merit badge. Whether you just got your first bicycle or have been cycling for years, you will learn more about your bike and what it can do by working on the requirements for this badge.

Maximum number of participants: 20

Prerequisites: Prerequisites:
2. Describe your state and local laws concerning bicycles. Discuss what is the same and what is different from laws applying to motor vehicles. Explain where and how you should ride on roads and streets to include lane position, changing lanes, making left and right turns, and riding through intersections.
6. Using the Scouting America buddy system, complete all of the requirements for ONE of the following options: Road Biking OR Trail or Mixed Surface Biking. These

Class Catalog

2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

requirements may be completed using a road bike, mountain bike or other properly equipped, manually-powered cycle such as a gravel bike, tandem bike, hand-powered bike, recumbent bike, adult tricycle, or adaptive cycle. If a tandem bike is used, the Scout must actively power the cycle in concert with the other rider."

Since it is a prerequisite that each cyclist doing the merit badge complete all ride requirements prior to the class at University of Scouting, all I will require is a typed and printed document with a statement that the cyclist has completed all ride requirements and this statement is signed off on by the unit's Scoutmaster.

Now on the matter of tracking miles... there are a few methods but the preferred way I recommend is to use Strava, a free app. Yes, this requires use of (carry on rides) a smart phone but most individuals, including youth, have one and would carry it on a ride anyway. Strava keeps a good record of mileage, routes, and ride stats and also allows them to avoid having to purchase and use a handlebar mounted computer, which is the second preferred method of tracking, but only for those that don't have a smart phone (although some cyclists prefer to use a computer anyway).

Using Strava will allow unit Scoutmasters to easily view the rides and routes that cyclists do for the merit badge.

Should you have any additional questions regarding this merit badge, you can message Bob directly at bburchell@indy.rr.com.

Dr. Rhonda Katter

Dog Care & Pets

The love and interdependence between humans and dogs has endured for thousands of years. Evidence suggests that dogs and humans started relying on each other thousands of years ago. Today, dogs are our coworkers and companions. They assist search-and-rescue teams, law enforcement officers, hunters, farmers, and people with disabilities. They also play with us and keep us company.

Pet ownership is a mixture of fun, excitement, responsibility, commitment, expense, and learning. Besides providing a window into the animal world, owning pets gives us opportunities to participate in activities that strengthen the human-animal bond. Pet ownership teaches us about the responsibility we have to the other living beings on this planet, and pets can be just plain fun.

Maximum number of participants: 6

Prerequisites: Prerequisites: Requirements 4, 8 and 9 for Dog Care and Requirement 1, 2 and one from 4 for Pets. Hello, my name is Rhonda Katter. I will be offering 2 merit badges during the Purdue University of scouting for Dec 2025.

Dog Care will be offered during the 3 hour session (see prerequisites listed below) . You may also bring your work for the Pets merit badge requirements for me to review at the end of the class discussion. You may elect to take only the Dog Care merit badge or take Dog Care and Pets. Due to the class time provided, I am not offering an only Pets merit badge option.

For Pets merit badge, you must email me (rnkatter@gmail.com) the type of pet that you will be caring for over the next 4 months and a general plan for that care. Once I reply to your email with approval, you may start the 4 months of recording care (prerequisite #1).

Bring #2 requirement to the class. #3 requirement can be approved via email at least 1 week prior to the class. For #4 requirement, please bring pictures or video to class (or email them to me prior to class).

For Dog Care merit badge prerequisites:

complete #4

a video of #5 may be presented in class (or emailed to me prior to class)

#8 and bring a written report to class (or email to me prior to class)

#10 (a) or (b) and bring a written report to class (or email to me prior to class).

PLEASE NOTE THAT #4 FOR DOG CARE AND #1 FOR PETS CANNOT OVERLAP. IF YOU ARE DOING BOTH MERIT BADGES, YOU WILL NEED TO SHOW 6 MONTHS TOTAL OF CARE.

Please remember to copy another adult in all of your email correspondences. This adult can be a parent, guardian, or scout leader. All emails should include your full name and the prerequisite # that you are submitting.

This class will be limited to 6 students to allow time to review all the prerequisite work and have time for class discussions.

Sincerely,

Rhonda Katter"

Drafting

Drafting is a highly refined form of drawing used to communicate ideas to engineers, architects, and craftspeople. In earning this badge, Scouts learn the importance of accuracy and simplicity in developing a drawing that shows precise details in a simple format

Maximum number of participants: 15

Prerequisites: Prerequisites: 3. Produce a computer-aided design (CAD) drawing as it would be used in manufacturing. Fill in all title block information. The CAD drawing may be any one of the following drawing types:

(a) Architectural: Make a scale drawing of an architectural project. The architectural drawing may be a floor plan; electrical, plumbing, or mechanical service plan; elevation plan; or landscaping plan. Use an architect's scale and show dimensions to communicate the actual size of features. Include any important sectional drawings,

Class Catalog

2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

notes, and considerations necessary for construction.

(b) Mechanical: Make a scale drawing of some mechanical device or interesting object. The mechanical drawing may be of the orthographic or isometric style. Use an engineer's scale and show dimensions to communicate the actual size of features. Include any important sectional drawings, notes, and manufacturing considerations.

(c) Electrical: Draw a simple schematic of a radio or electronic circuit. Properly print a bill of materials including all of the major electrical components used in the circuit. Use standard drawing symbols for the electronic components.

7. Do ONE of the following:

(a) Visit a facility or industry workplace where drafting is part of the business. Ask to see an example of the work that is done there, the different drafting facilities, and the tools used.

(1) Find out how much of the drafting done there is manual and how much is done using CAD. If CAD is used, find out what software is used and how and why it was chosen.

(2) Ask about the drafting services provided. Ask who uses the designs produced in the drafting area and how those designs are used. Discuss how the professionals who perform drafting cooperate with other individuals in the drafting area and other areas of the business.

(3) Ask how important the role of drafting is to producing the end product or service that this business supplies. Find out how drafting contributes to the company's end product or service.

(b) Using resources you find on your own such as at the library and on the Internet (with your parent or guardian's permission), learn more about the drafting trade and discuss the following with your counselor.

(1) The drafting tools used in the past - why and how they were used. Explain which tools are still used today and how their use has changed with the advent of new tools. Discuss which tools are being made obsolete by newer tools in the industry.

(2) Tell what media types were used in the past and how drawings were used, stored, and reproduced. Tell how the advent of CAD has changed the media used, and discuss how these changes affect the storage or reproduction of drawings.

(3) Discuss whether the types of media have changed such that there are new uses the drawings, or other outputs, produced by designers. Briefly discuss how new media types are used in the industry today."

Huston Electric
Matt Huston

Electricity

Electricity is a powerful and fascinating force of nature. As early as 600 b.c., observers of the physical world suspected that electricity existed but did not have a name for it. In fact, real progress in unraveling the mystery of electricity has come only within the last 250 years.

Maximum number of participants: 25

Fish and Wildlife Management & Mammal Study

Wildlife management is the science and art of managing the wildlife - both animals and fish - with which we share our planet. Maintaining the proper balance and the dynamics that go with it requires humankind's attention. We use this stewardship tool to help minimize or eradicate the possibility of extinction of any given species. We want our descendants to have the opportunity to experience the same animal diversity that we now enjoy.

A mammal may weigh as little as 1/12 ounce, as do some shrews, or as much as 150 tons, like the blue whale. It may spring, waddle, swim, or even fly. But if it has milk for its young, has hair of some kind, is relatively intelligent, and has warm blood, then it is a mammal.

Maximum number of participants: 15

Prerequisites: Prerequisites:

Fish & Wildlife: Requirement 5

Mammal Study: None

Life Skills

The Life Skills Badge helps Scouts develop a variety of practical skills that are essential for independent living and personal growth. It covers areas such as health, household management, finance, social interactions, employment readiness, and transportation. Scouts learn how to maintain their physical and mental well-being, manage personal finances, care for their living spaces, communicate effectively with others, explore career options, and safely navigate transportation systems. By completing the requirements, Scouts gain valuable tools for responsible decision-making and become better prepared to take on adult responsibilities.

Maximum number of participants: 15

Prerequisites: Prerequisites: 2A; 2D; 7E

What is the Test Lab?

The Scouts BSA Test Lab is an exciting way to help in the development of fun and interesting new topics unique to the Scouts BSA program. The requirements for each badge have the look and feel of merit badges, but instead of a printed pamphlet, you will find links to digital resources to help you complete the requirements.

What to do:

You must work with a registered adult volunteer of your choosing. After completion of all requirements, you must take a short survey which will lead you to a certificate of completion.

If enough surveys show Scouts enjoyed these potential new badges, we hope to introduce them as official merit badges in the future. If you complete a Test Lab badge

Class Catalog

2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

and it becomes an official merit badge, you will be credited with having earned that badge!

Keep logging in to this page to see what new topics are added as each badge will have a test lab expiration date.

Test Lab Rules:

1. Any registered adult can work with Scouts on these potential new badges.
2. Badges will have a clearly stated time period by which all requirements must be completed.
3. After the expiration date, the badge will be removed from the Test Lab and the National Council will evaluate if the subject should be added as a new merit badge.
4. When all requirements are finished successfully, a survey will be available to gather opinions on the badge. Scouts will then be able to access the certificate of completion which must be signed and dated by the registered adult they have worked with.
5. Should the badge be approved as a new merit badge, Scouts can be credited as having earned that badge if they present their signed and dated certificate to their unit.
6. Scouts completing the requirements after the expired time period will not be recognized as having earned the badge.

Physics

Physics is the science of how things move, interact, and exist—from the tiniest particles inside atoms to the vast galaxies stretching across space. It's the foundation of modern technology, the reason rockets fly, and the explanation behind everyday phenomena like why your phone works or how a soccer ball curves through the air.

By working on these requirements, you'll explore the mysteries of motion, energy, and forces. You'll learn how the laws of nature govern everything around us—from the moment you wake up to the time you go to sleep. Whether you're fascinated by space, curious about electricity, or just love asking "why?", physics will help you see the world in a whole new way.

Get ready to experiment, discover, and be amazed. Physics isn't just a subject—it's a journey into how the universe works. And it starts right here.

So, welcome to the world of Physics—your gateway to understanding the incredible forces that shape our universe!

HORT 222
Jamie Reed

Plant Science

Plant scientists use their curiosity and knowledge to develop questions about the world of plants. Then they try to answer those questions with further observations and experiments in the laboratory and in the field. To earn this merit badge, Scouts will explore three of the most important plant science specialties: agronomy, horticulture, and field botany.

Maximum number of participants: 15

Prerequisites: Prerequisites: 5, 6 and 8

25FM81 9-12 PM
Brenneco Plumbing
Randy Lynch

Plumbing with Randy Lynch

Plumbing, including pipe fitting, is an important and well-paid occupation. The industry is quite broad. It covers installations and repairs in homes, commercial properties, and factories. Plumbing pipelines are used for water supply, waste drainage, natural-gas heating, and many other purposes.

Maximum number of participants: 15

Prerequisites: No Prerequisites

This class is taught offsite at Brenneco Plumbing, 2780 Conservation Club Rd. Lafayette.

25FM84 9-12 PM
HAMP 1266
Dave Henderson

Public Health With Dave Henderson

The field of public health deals with maintaining and monitoring the health of communities, and with the detection, cure, and prevention of health risks and diseases. Although public health is generally seen as a community-oriented service, it actually starts with the individual. From a single individual to the family unit to the smallest isolated rural town to the worldwide global community, one person can influence the health of many.

Maximum number of participants: 15

Prerequisites: Prerequisites: 5

25FM86 9-12 PM
BRNG B248
Mac Witgen

Pulp and Paper

Here's an astonishing number to digest. Each person in the United States uses about 700 pounds of paper each year. Paper is everywhere in our lives. Every year in the United States, more than 2 billion individual books, 24 billion newspapers, and 350 million magazines are published on paper.

Maximum number of participants: 15

Prerequisites: Prerequisites: Requirements 7 (choice) and 8

25FM87 9-4 PM
BRWN 3102
Bob Sambolin

Radio

Radio is a way to send information, or communications, from one place to another. Broadcasting includes both one-way radio (a person hears the information but can't reply) as well as two-way radio (where the same person can both receive and send messages).

Maximum number of participants: 15

Prerequisites: Prerequisites: 8 and read the MB book before arrival

25FM88 9-12 PM
HAMP 2118
Matt Milbourne

Railroading

By earning this badge, Scouts can learn about the history of railroading, its place in modern society, careers in railroading, and hobbies related to railroading.

Maximum number of participants: 15

25FM89 9-12 PM
BRNG B242

Reading & Scholarship Combo

If you have ever wanted to go back in time or wished you could visit the future, if you are curious about the world, or if you are interested in how things work or like to learn new things, these are all reasons why you should want to read. Reading is fascinating. It's full of surprises. And it will take you places you can't get to in any other way.

Working on the Scholarship merit badge provides Scouts with a great opportunity to become more successful in school. They will learn how to improve their skills in the classroom, develop good study habits, and master techniques for writing reports and taking tests.

Maximum number of participants: 15

Prerequisites: Prerequisites:

Reading: 3 & 6

Scholarship: 1, 3 & 5

25FM93 9-4 PM
HHS
Cole Benninghoff

Rowing

Rowing is the use of oars as a means of propelling boats, has grown from a basic method of transportation to a competitive sport and an enjoyable method of exercising.

Maximum number of participants: 6

Scouting Heritage

Introduces youth to the history of the Boy Scouts of America. They'll learn it all - from Scouting's beginnings under Lord Baden-Powell to the history of their own troop.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4, 5, 6, and 8 need to be done beforehand.

Requirements 4, 6, and 8 will be finished in the class when they discuss what they learned with their counselor. Requirement 5 will have to be done exclusively in their unit.

25FM98 9-4 PM
LJHS
Dive Indy

Scuba Diving

Explore a whole new environment under the sea with the Scuba Diving Merit Badge. Be Prepared to handle diving-related injuries and illnesses, learn the importance of diving responsibly, study underwater ecosystems, and wrap it all up by earning your open-water diving certification.

Full Day (10 AM-6 PM), Lafayette Jefferson High School Pool, Off Campus, Class Size: 16

Event Fee: \$25 +

Scuba Diving MB Fee: \$350 which includes the equipment rental. When you go to do your check out dives later this year/summer if you use Indy Dive Center. It will be an additional \$200 + \$75 for gear rental. If you go elsewhere for your check out dives, you will obviously pay your local dive shop.

There will be two mandatory zoom meetings before the event and post-requisite work this is necessary to complete the merit badge. Since this is a complicated course, we want to be as transparent with as much information as we can.

We will have a Zoom Interest/Orientation on Wednesday, August 20th at 7pm.

Meeting ID: 891 3692 6381 and Passcode: 752649

MANDATORY FOR ANY SCOUT TAKING THIS MERIT BADGE:

Class Catalog

2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

(Virtual) Academics Session 1: Tuesday, December 2nd from 7:00pm - 9:00pm EST

Links for these will be sent to all registrants for the event later this fall.

MANDATORY FOR ANY SCOUT TAKING THIS MERIT BADGE:

(Virtual) Academics Session 2: Thursday, December 4th from 7:00pm - 9:00pm EST

Links for these will be sent to all registrants for the event later this fall.

Tentative Class Timeline: December 6, 2025

10:00 AM: Cover merit badge requirements.

Dive Indy will bring in CPR dummies and go through real first responder skills but they will not be earning their first responder/CPR certification.

12:00 PM they will hit the water.

2:00 PM Break to get out and warm up, have a snack, and decompress

2:30 PM, back in the water.

4:00 PM, done with "in the water" learning

4:00 PM-5:00 PM Session on Aquatic Ecosystems and being a good steward of Water, Careers in Scuba. (this includes a snack time)

6:00 PM Pack up and leave.

Scouts will have met every metric for their badge at this point EXCEPT their 5-6 OPEN WATER CHECK OUT DIVES. They will still need to schedule their final check out dives with their local dive shop in open water, to be able to finish the last part of the requirements. If local to North Central Indiana, they can set them up with Dive Indy as early as May, but we recommend June temperatures for kids.

Additional Fee: \$350.00

Maximum number of participants: 16

Prerequisites: Pre-requisites: Scouts must have earned the Swimming Merit Badge before this class, be medically fit for diving, and be comfortable in deep water. Scouts must bring their own mask for the event. Dive Indy will provide snorkels and fins. They will have an assortment of wet suits but not one for every person.

The most important thing about having their own mask, is that it fit their face well. If they have a leaky mask that does not properly fit their face, they will struggle to get through all the skills. Dive Indy will demonstrate how to fit a mask properly in the virtual orientation so that parent's know what to look for. We will recommend that remote parents visit their local dive shop so that their Scouts can be shown how to fit for a mask.

There will be two mandatory zoom meetings before the event and post-requisite work this is necessary to complete the merit badge.

We will have a Zoom Interest/Orientation on Wednesday, August 20th at 7pm.

Meeting ID: 891 3692 6381 and Passcode: 752649

Search and Rescue

The process and safety methods of working around specialized teams such as aircraft, canine, and aquatic rescue teams. Identifying differences between search and rescue environments, such as coastal, wilderness, rural, and urban landscapes. Determining when Universal Transverse Mercator (UTM) and latitude and longitude (Lat/Lon) should be used.

Maximum number of participants: 20

Prerequisites: No Prerequisites

25FM102 9-12 PM
BRNG 1254
Katrina Glass

Signs, Signals, and Codes

American Sign Language (ASL) is the third most used language in the United States. The Signs, Signals, and Codes merit badge will cover Morse code, ASL, Braille, signaling, trail markings, and other nonverbal communications. Did you know that some of these have even saved people's lives?

Maximum number of participants: 15

Prerequisites: Prerequisites: 7, (optional) 10

25FM106 9-4 PM
BHEE 236
Mike Smith

Soil and Water Conservation

Conservation isn't just the responsibility of soil and plant scientists, hydrologists, wildlife managers, landowners, and the forest or mine owner alone. It is the duty of every person to learn more about the natural resources on which our lives depend so that we can help make sure that these resources are used intelligently and cared for properly.

Maximum number of participants: 15

Prerequisites: Prerequisites: 7(e)

25FM107 9-5 PM
BRNG B238
Teresa Wan

Space Exploration

Space is mysterious. We explore space for many reasons, not least because we don't know what is out there, it is vast, and humans are full of curiosity. Each time we send explorers into space, we learn something we didn't know before. We discover a little more of what is there.

Maximum number of participants: 15

Prerequisites: Prerequisites:

2. Design a collector's card, with a picture on the front and information on the back, about your favorite space pioneer. Share your card and discuss four other space pioneers with your counselor.

5(b) Using articles from the internet, photographs and text, create a blog, website, or slide show about a current planetary mission or use magazine photographs, news clippings, and articles from the internet to make a scrapbook about a current planetary mission."

NOTE: This class will end at 5 PM, not 4 PM like the rest of the classes.

Wildlife Fire Management

Every year, millions of acres, throughout the United States are lost to destructive wildfires. Billions of dollars are spent annually and the loss of property and life is catastrophic. Smoke from American and Canadian wildfires can spread across the country affecting the public health of millions of people annually. Wildfire has become a national crisis in the United States.

As destructive as wildfire can be, managed wildland fire can also be beneficial. Fire plays a critical process in many ecosystems and can enhance habitats, reduce fuel loads and support forest regeneration.

Class Catalog

2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

Understanding and managing wildland fire is a complex undertaking. Striking a balance between preventing and suppressing harmful human-caused wildfire while promoting beneficial fire in the landscape will be the challenge as we continue to live with fire in the United States.

As Scouts, we can learn and do our part to make our homes, our camps and our communities more resilient and resistant to wildfire and we can understand the natural role that fire plays in our nation's wildlands. We can explore and consider careers in wildland fire management or even become wildland firefighters. The future of wildland fire management in the United States will require leaders who are conservation-minded.

Maximum number of participants: 15

Prerequisites: No Prerequisites

This class is taught offsite at Franklin L. Cary Camp, 6286 IN-26, Lafayette, IN 47905

What is the Test Lab?

The Scouts BSA Test Lab is an exciting way to help in the development of fun and interesting new topics unique to the Scouts BSA program. The requirements for each badge have the look and feel of merit badges, but instead of a printed pamphlet, you will find links to digital resources to help you complete the requirements.

What to do:

You must work with a registered adult volunteer of your choosing. After completion of all requirements, you must take a short survey which will lead you to a certificate of completion.

If enough surveys show Scouts enjoyed these potential new badges, we hope to introduce them as official merit badges in the future. If you complete a Test Lab badge and it becomes an official merit badge, you will be credited with having earned that badge!

Keep logging in to this page to see what new topics are added as each badge will have a test lab expiration date.

Test Lab Rules:

1. Any registered adult can work with Scouts on these potential new badges.
2. Badges will have a clearly stated time period by which all requirements must be completed.
3. After the expiration date, the badge will be removed from the Test Lab and the National Council will evaluate if the subject should be added as a new merit badge.
4. When all requirements are finished successfully, a survey will be available to gather opinions on the badge. Scouts will then be able to access the certificate of completion which must be signed and dated by the registered adult they have worked with.
5. Should the badge be approved as a new merit badge, Scouts can be credited as having earned that badge if they present their signed and dated certificate to their unit.
6. Scouts completing the requirements after the expired time period will not be recognized as having earned the badge.

NOTE: This class is taught offsite at Franklin L. Cary Camp, 6286 IN-26, Lafayette, IN 47905

Coin Collecting

Coin collecting is one of the oldest of all hobbies. Hoards of ancient coins found in excavations indicate that coins were one of the first collectibles. From earliest times, people valued coins not only as a means of trading and storing wealth, but also as miniature works of art.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4a-f (collect all the coins listed) and 7a-c (collect the coins and/or money listed) and 7d 1-4. Bring coins/monies collected to class.

25FM24 1-4 PM
BRNG 2291
Michael Schramm

Collections

Collecting can be an educational and financially rewarding pastime: a collector must educate himself about a specific subject, be able to tell which items are worth preserving, how to catalog and organize his collection, and how to evaluate the value of items.

2025 - University of Scouting - Fall Semester @ Purdue University - Presented by IU Health: Saturday at Purdue University

Maximum number of participants: 15

Prerequisites: Prerequisites: 1, 5(b) and 7

25FM153 1-4 PM
BHEE 129

Cycling

Since 1911, hundreds of thousands of Scouts have made the most of their two-wheel adventures by earning the Cycling merit badge. Whether you just got your first bicycle or have been cycling for years, you will learn more about your bike and what it can do by working on the requirements for this badge.

Maximum number of participants: 20

Prerequisites: Prerequisites:

2. Describe your state and local laws concerning bicycles. Discuss what is the same and what is different from laws applying to motor vehicles. Explain where and how you should ride on roads and streets to include lane position, changing lanes, making left and right turns, and riding through intersections.

6. Using the Scouting America buddy system, complete all of the requirements for ONE of the following options: Road Biking OR Trail or Mixed Surface Biking. These requirements may be completed using a road bike, mountain bike or other properly equipped, manually-powered cycle such as a gravel bike, tandem bike, hand-powered bike, recumbent bike, adult tricycle, or adaptive cycle. If a tandem bike is used, the Scout must actively power the cycle in concert with the other rider."

Since it is a prerequisite that each cyclist doing the merit badge complete all ride requirements prior to the class at University of Scouting, all I will require is a typed and printed document with a statement that the cyclist has completed all ride requirements and this statement is signed off on by the unit's Scoutmaster.

Now on the matter of tracking miles... there are a few methods but the preferred way I recommend is to use Strava, a free app. Yes, this requires use of (carry on rides) a smart phone but most individuals, including youth, have one and would carry it on a ride anyway. Strava keeps a good record of mileage, routes, and ride stats and also allows them to avoid having to purchase and use a handlebar mounted computer, which is the second preferred method of tracking, but only for those that don't have a smart phone (although some cyclists prefer to use a computer anyway).

Using Strava will allow unit Scoutmasters to easily view the rides and routes that cyclists do for the merit badge.

Should you have any additional questions regarding this merit badge, you can message Bob directly at bburchell@indy.rr.com.

Introduction to Leadership Skills for Troops

The purpose of the ILST course is to teach Scouts with leadership positions about their new roles and how to most effectively reach success in that role. It is intended to help Scouts in leadership positions within their troop understand their responsibilities and to equip them with organizational and leadership skills to fulfill those responsibilities. ILST is the first course in the series of leadership training offered to Scouts and is a replacement for Troop Leadership Training.

Maximum number of participants: 20

Prerequisites: Completion of ILST is a prerequisite for Scouts to participate in the more advanced leadership courses National Youth Leadership Training (NYLT) and the National Advanced Youth Leadership Experience (NAYLE). It is also required to participate in a Kodiak Challenge Trek.

***This is not a Merit Badge Class.

25FM60 1-4 PM
HORT 210
Dr. Aaron Thompson

Landscape Architecture

Landscape architects design and plan the various outdoor spaces in modern communities - neighborhood parks, soccer fields, school grounds, places of worship, office parks, shopping malls, cemeteries, and lakes - creating outdoor places that people will care about and want to visit.

Maximum number of participants: 15

Prerequisites: Prerequisites: 5

25FM61 1-4 PM
BRNG 1260
Cedric D'Hue

Law

Earning this merit badge enables a Scout to learn about the history and kinds of laws, the purpose and methods of law enforcement, consumer protection agencies, emerging law, and careers in the legal profession.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4 & 7

25FM70 1-4 PM
HAGLE
Mo Trout

Music

The history of music is rich and exciting. Through the ages, new music has been created by people who learned from tradition, then explored and innovated. All the great music has not yet been written. Today, the possibilities for creating new music are limitless.

Maximum number of participants: 15

Prerequisites: Prerequisites:

Requirement 3, all four options require work done before class

- Presentation to class
- Have a paper or notes that can be turned in or presented to class
- Proof of participation in a school musical organization
- Prepare to discuss with class or counselor

Notes: Knowledge of music reading is required.

GRIS 126
Pete Ristau

Salesmanship with Pete Ristau

By studying salesmanship, Scouts can learn self-confidence, motivation, friendliness, and the persistence necessary to overcome obstacles and solve problems. Sales can offer a challenging and rewarding career for those who enjoy interacting with people from all walks of life.

Maximum number of participants: 15

Prerequisites: Prerequisites: 5

25FM97 1-4 PM
CL50 121
Frank O'Hare

Scouting Heritage

Introduces youth to the history of the Boy Scouts of America. They'll learn it all - from Scouting's beginnings under Lord Baden-Powell to the history of their own troop.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4, 5, 6, and 8 need to be done beforehand.

Requirements 4, 6, and 8 will be finished in the class when they discuss what they learned with their counselor. Requirement 5 will have to be done exclusively in their unit.

25FM110 1-4 PM
CL50 125
Laura Gross

Surveying

While earning this merit badge, Scouts will discover how land is measured and how it is described so that others can know where boundary lines are. They will have a chance to use some fine measuring instruments, apply advanced mathematics, operate computing equipment, and create a survey map.

Maximum number of participants: 15

Prerequisites: No Prerequisites

25FM139 1-4 PM
BHEE 222
Kevin Bump

Sustainability with Kevin Bump

While earning this badge, Scouts learn about climate change, species extinction, resource extraction, green chemistry, recycling, and zero-waste manufacturing!

Maximum number of participants: 10

Prerequisites: Prerequisites: 8 (a) and (c)

25FM111 1-4 PM
GRIS 133
Cyndi Morgan

Textile

People use countless fibers and fabrics in their everyday lives: clothes, carpets, curtains, towels, sheets, upholstered furniture. Add to that list boat sails, book bindings, bandages, flags, sleeping bags, mailbags, airbags, seat belts, backpacks, parachutes, umbrellas, basketball nets, and more.

Maximum number of participants: 15

SCHM 122
Derrian Ruess

Arrow of Light Trio with Derian Reuss & Katie DeVault

Lots of people have great ideas: flying to the moon, tunneling under rivers, building robots that walk and talk, or making triple-loop rollercoasters. Engineers turn those ideas into reality. They use science, math, and creative thinking to improve people's lives. In this Adventure, you will learn what engineers do. Even better, you can do some engineering projects of your own. So put on your thinking cap and get ready to think like an engineer!

There are times when we need to be exact, like when building a model or baking from a recipe. When we do not need to be exact, or we only need a general idea of something or its cost, we can estimate. There are some simple ways to estimate things like the time of day or even the height of an object.

Trees and plants play important roles in nature. In this Adventure, you will get to learn about the plants and trees in your community by exploring your area on a walk or visit to a local nature center, tree farm, or park.

If you have ever stood beneath a towering redwood, enjoyed the colors of fall leaves, or watched pine trees swaying in the wind, you know that trees and plants are beautiful. But they are also important to life on Earth. As you go into the woods, you will learn what trees and plants do for us and for animals, and why taking care of them is important to our planet's well-being.

Maximum number of participants: 16

Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

NOTE: This class is taught by Darrian Ruess and Katie DeVault. If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

Ashley Robertson

Bear Trio with Ashley Robertson

Learning to build things that are useful or fun is an important skill. You might grow up to build houses as a career or models as a hobby. Or you might just learn some skills that will help you in everyday life.

Building materials may include wood, cement, plastic, steel, or a combination of all these things. For this Adventure, we will focus on wood. You will learn about hand tools and how to use them safely. You will learn how to choose the right type of wood for a project and follow project instructions. And before you're finished, you will use your new skills to make two projects from wood.

Everywhere you go, you leave behind clues: fingerprints on your juice glass, DNA on your toothbrush, bits of fabric on your favorite chair, and footprints in your yard. Criminals leave behind clues, too. Forensic scientists study those clues to help law enforcement officers solve crimes.

Forensics is all about using science to answer questions about crimes (and other things that have happened). In this Adventure, you will practice some of the skills of a forensic scientist.

You will analyze a fingerprint, a footprint, the contents of ink, and some mysterious white powder. Grab your magnifying glass and start detecting!

Have you ever wondered why the sky is blue or how gravity works or what makes a rainbow? Scientists wonder about those things, too.

Maximum number of participants: 15

Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

Webelos Tetrad with Michaela Duffy

If you visit a lumber store, you'll see rows and rows of all sorts of wood: boards, dowel rods, sheets of plywood, cedar shingles, and more. With some tools and time, a skilled craftsperson can turn that wood into toys, bookcases, or even an entire house. You won't build a house in this Adventure, but you will build a smaller carpentry project. You'll also learn about the tools you could use to build just about anything you can dream up. So, grab your tool belt, and let's get started.

Rocks and minerals are more than just things that lie in the ground. Yes, they help form our planet, but people also use them to create things that make our lives easier. In this Adventure, you'll dig into the world of rocks and minerals and discover some surprises about the science of geology - like how the ground beneath your feet is constantly on the move.

In this Adventure, you will learn how to estimate the time it takes you to take a walk. If you know your pace, you can estimate how long it will take you and others to walk any given distance.

Getting outside is a fun part of being a Cub Scout. Using technology outdoors can be an important part of helping you explore the world around you.

Maximum number of participants: 15

Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

Megan Montgomery

Wolf Trio with Megan Montgomery

To most people, coins are used to buy things they want or need. But coins can also tell a story. The pictures on United States coins tell a lot about our country's culture and history. In this Adventure, you will get to be a numismatist (noo-MIZmuh-tist). A numismatist is a person who studies coins and money. You'll learn where coins are made and the meaning of their pictures and words.

It's time to take flight. Do you know the secret to making a paper airplane fly longer or farther? In this Adventure, you will have fun making different types of airplanes and other flying objects.

Dinosaurs and other giant creatures lived and died out millions of years ago, so thankfully you won't run into one on a walk. A scientist who studies dinosaurs is called a paleontologist (pa-le-on-to-lo-gist). They study dinosaur bones and fossils to learn more about their habits, the food they ate, and their size. During this Adventure, you will match dinosaurs to their names, and you'll use your imagination to create your own dinosaur.

Maximum number of participants: 15
