Class Catalog

2026 - Spring University of Scouting presented by IU Health at IUK at IUK

2026 Spring U of S Adult Classes (Scheduled Classes)

26AC1	9-3 PM		Cubmaster Training Three steps anyone can learn to help prevent suicide. Just like CPR, QPR is an emergency response to someone in crisis and can save lives. The QPR mission is to save lives and reduce suicidal behaviors by providing innovative, practical and proven suicide prevention training. We believe that quality education empowers all people, regardless of their background, to make a positive difference in the life of someone they know. 2-hour course. (70-person max capacity)
26AC8	9-5 PM		Heart-saver First Aid CPR AED Training The class is being taught by CPR Indianapolis and includes the materials and a 2-year American Heart Association Certification. Additional Fee: \$155.00 Maximum number of participants: 12 Prerequisites: This class will run from 9:00 AM to 5:00 PM. We will need a minimum of 6 attendees for the class to be held. If this minimum is not met, a refund will be provided. NOTE: We will need a minimum of 6 attendees for the class to take place. If this minimum is not met, a refund will be provided.
26AC3	9-4 PM		Scouting America Angling Educator Course Everything you need to know to take your Scouts Fishing! The program is designed to give a student who has never fished the skills and knowledge, both practical and ethical, to go to a pond and be immediately successful.
26AC2	10-12 PM		Dutch Oven Cooking For the eater in all of us (lunch included).
26AC4	10-11 AM		Going Outdoors Doesn't Need to be Expensive; Learn how to have fun and keep it affordable.
26AC7	10-12 PM		QPR Suicide Prevention Training Three steps anyone can learn to help prevent suicide. Just like CPR, QPR is an emergency response to someone in crisis and can save lives. The QPR mission is to save lives and reduce suicidal behaviors by providing innovative, practical and proven suicide prevention training. We believe that quality education empowers all people, regardless of their background, to make a positive difference in the life of someone they know. 2-hour course.

26AC6 1-3 PM

Mark Bradford

Fireside Chit Chat: A Volunteer Lead Discussion On Best Methods For Troop Operations and Problem Solving Through Volunteers

Fire Side Chit Chat is designed by volunteers for volunteers. During this time the room is available "open house" style with 4-6 scouters on the panel and ready to share their experiences. Come and go as you wish, ask questions or help answer a few questions that other volunteers ask! This is a time for scouters from all areas to talk, ask questions and learn from each other. No topic is off limits and deep discussions can happen if the group desires. Topics like youth lead, high adventure, PLC/ILST programs, patrol cooking and so much more can be discussed. Have you ever wondered how other troops handle "xyz"? If so this Fireside Chat is for you!

2026 U of S Spring Merit Badges (Scheduled Classes)

26KU29 9-1 PM
Camp Buffalo Indoor
Archery Range
Abby Thatcher

Archery

Archery is a fun way for Scouts to exercise minds as well as bodies, developing a steady hand, a good eye, and a disciplined mind. This merit badge can provide a thorough introduction to those who are new to the bow and arrow - but even for the experienced archer, earning the badge can help to increase the understanding and appreciation of archery.

Maximum number of participants: 8

Prerequisites: No Prerequisites.

This class is taught offsite at Camp Buffalo, 9400 N Boy Scout Rd, Monticello, IN 47960 (Approximately 1 hour away from the Purdue campus)

Class times are: 9 AM-1 PM (Session 1) and 2-6 PM (Session 2)

NOTE: This class is taught offsite at Camp Buffalo, 9400 N Boy Scout Rd, Monticello, IN 47960

26KU31 9-4 PM
Grissom Air Museum
Jakob Jones

Aviation

For most of history, people have dreamed of flying, imagining how it would feel to soar through the sky like an eagle or hover in midair like a hummingbird, to float on unseen currents, free of Earth's constant tug, able to travel great distances and to rise above any obstacle. Today, through aviation, we can not only join the birds but also fly farther, faster, and higher than they ever could.

Maximum number of participants: 15

Prerequisites: Prerequisites: 3B (provide link to Digital Content: <https://www.scouting.org/skills/merit-badges/digital-resource-guides/aviation/>)

This class is taught offsite at Grissom Air Museum, 1000 W Hoosier Blvd, Peru, IN 46970

NOTE: This class is taught off site at Grissom Air Museum

26KU24 9-12 PM

Melissa Dotson

Citizenship in the Community with Melissa Dotson

A nation is a patchwork of communities that differ from each other and may be governed differently. But regardless of how local communities differ, they all have one point in common: In the United States, local government means self-government. Good citizens help to make decisions about their community through their elected local officials.

Maximum number of participants: 10

Prerequisites: Prerequisites: 2A, 2B, 3A, 4, 7 and 8 (present in class)

26KU18 9-12 PM
100 - KO Main Building
Michael Budd

Citizenship in the Community with Michael Budd

Citizenship in the Nation

As Scouts fulfill the requirements for this merit badge, they will learn how to become active citizens are aware of and grateful for their liberties and rights, to participate in their governments and protect their freedom, helping to defend their country and standing up for individual rights on behalf of all its citizens.

Maximum number of participants: 10

Prerequisites: Prerequisites: 2, 3, and 8. Please also bring a roster of names, home addresses, Unit number, and the names of your state and national elected officials (Senators and Representatives).

26KU19 9-4 PM
108 - KO Main Building
Richard McClurg

Citizenship in the World

Scouts who earn the Citizenship in the World merit badge will discover that they are already citizens of the world. How good a world citizen each person is depends on his willingness to understand and appreciate the values, traditions, and concerns of people in other countries.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4b, 7a, 7b

Scout must be 13 years old and/or First Class

*Please read the Citizenship in the World document located in the attachments on the event home page.

26KU30 9-4 PM
Climb Lafayette
Stephen Backus

Climbing

Climbing is not a sport that requires tremendous muscular strength; it demands mental toughness and the willingness to practice hard to master a set of skills. The adventure of climbing can also provide a new way to enjoy the outdoors.

Additional Fee: \$50.00

Maximum number of participants: 20

Prerequisites: No Prerequisites

This class is taught offsite, approximately 1 hour away, at Climb Lafayette, 4650 Dale Dr, Lafayette, IN 47905

NOTE: This class is taught offsite at Climb Lafayette, 4650 Dale Dr, Lafayette, IN 47905

Coin Collecting

Coin collecting is one of the oldest of all hobbies. Hoards of ancient coins found in excavations indicate that coins were one of the first collectibles. From earliest times, people valued coins not only as a means of trading and storing wealth, but also as miniature works of art.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4a-f (collect all the coins listed) and 7a-c (collect the coins and/or money listed) and 7d 1-4. Bring coins/monies collected to class.

26KU35 9-12 PM
150 - KO Main Building
Michael Schramm

Collections

Collecting can be an educational and financially rewarding pastime: a collector must educate himself about a specific subject, be able to tell which items are worth preserving, how to catalog and organize his collection, and how to evaluate the value of items.

Maximum number of participants: 15

Prerequisites: Prerequisites: 1, 5(b) and 7

26KU4 9-12 PM
179 - KO Main Building
Tom Hoffer

Disabilities Awareness

Look around at the Scouts in your unit, the members of your sports teams, and the kids in your class - you will see that each person has their own personalities, distinct interests and ideas, different physical features, and different strengths and needs.

Maximum number of participants: 15

Prerequisites: No Prerequisites

NOTE: This class is instructed by both Tom Hoffer and Shawn Hoffer

26KU32 9-12 PM
204 - KO Main Building
Mike Dwyer

Engineering

Engineers use both science and technology to turn ideas into reality, devising all sorts of things, ranging from a tiny, low-cost battery for your cell phone to a gigantic dam across the mighty Yangtze River in China.

Maximum number of participants: 10

Prerequisites: Prerequisites:

1 - Scout should bring in the object they choose to investigate to discuss the principles in the req.

2 - Be prepared for a short 5-10 min presentation for your achievement

5 - Watch the Video in the online resource (merit badge link) and design your object.

Bring this in to show and discuss the design process.

Indian Lore

Far different from the stereotypes or common images that are portrayed on film, on television, and in many books and stories, American Indians have many different cultures, languages, religions, styles of dress, and ways of life. To learn about these different groups is to take an exciting journey of discovery in which you will meet some of America's most fascinating peoples.

Maximum number of participants: 15

Prerequisites: Prerequisites: 3(b), 3(c), 5. Please bring all of your prerequisite answers to class. We will complete 3a in class.

26KU23 9-12 PM
203 - KO Main Building
Patrick Motl

Physics - Test Lab

Physics is the science of how things move, interact, and exist-from the tiniest particles inside atoms to the vast galaxies stretching across space. It's the foundation of modern technology, the reason rockets fly, and the explanation behind everyday phenomena like why your phone works or how a soccer ball curves through the air.

By working on these requirements, you'll explore the mysteries of motion, energy, and forces. You'll learn how the laws of nature govern everything around us-from the moment you wake up to the time you go to sleep. Whether you're fascinated by space, curious about electricity, or just love asking "why?", physics will help you see the world in a whole new way.

Get ready to experiment, discover, and be amazed. Physics isn't just a subject-it's a journey into how the universe works. And it starts right here.

So, welcome to the world of Physics-your gateway to understanding the incredible forces that shape our universe!

Maximum number of participants: 15

Prerequisites: What is the Test Lab?

The Scouts BSA Test Lab is an exciting way to help in the development of fun and interesting new topics unique to the Scouts BSA program. The requirements for each badge have the look and feel of merit badges, but instead of a printed pamphlet, you will find links to digital resources to help you complete the requirements.

What to do:

You must work with a registered adult volunteer of your choosing. After completion of all requirements, you must take a short survey which will lead you to a certificate of completion.

If enough surveys show Scouts enjoyed these potential new badges, we hope to introduce them as official merit badges in the future. If you complete a Test Lab badge and it becomes an official merit badge, you will be credited with having earned that badge!

Keep logging in to this page to see what new topics are added as each badge will have a test lab expiration date.

Test Lab Rules:

1. Any registered adult can work with Scouts on these potential new badges.
2. Badges will have a clearly stated time period by which all requirements must be completed.
3. After the expiration date, the badge will be removed from the Test Lab and the National Council will evaluate if the subject should be added as a new merit badge.
4. When all requirements are finished successfully, a survey will be available to gather opinions on the badge. Scouts will then be able to access the certificate of completion which must be signed and dated by the registered adult they have worked with.
5. Should the badge be approved as a new merit badge, Scouts can be credited as having earned that badge if they present their signed and dated certificate to their unit.

Class Catalog

2026 - Spring University of Scouting presented by IU Health at IUK at IUK

6. Scouts completing the requirements after the expired time period will not be recognized as having earned the badge.

Ashley Duffitt

Public Health with Ashley Duffitt

The field of public health deals with maintaining and monitoring the health of communities, and with the detection, cure, and prevention of health risks and diseases. Although public health is generally seen as a community-oriented service, it actually starts with the individual. From a single individual to the family unit to the smallest isolated rural town to the worldwide global community, one person can influence the health of many.

Theater

While earning the Theater merit badge, Scouts will learn to appreciate live performances as members of the audience as well as go behind the footlights to see the view from the other side. Much more goes on in theater than ever meets the audience's eye.

Maximum number of participants: 15

Prerequisites: Prerequisites: 1 & 2

26KU5 1-4 PM
080 - KO Main Building
Patrick Motl

Astronomy

In learning about astronomy, Scouts study how activities in space affect our own planet and bear witness to the wonders of the night sky: the nebulae, or giant clouds of gas and dust where new stars are born; old stars dying and exploding; meteor showers and shooting stars; the moon, planets, and a dazzling array of stars.

Maximum number of participants: 15

Prerequisites: Prerequisites: 4. Do the following (if instruction is done in a

Class Catalog

2026 - Spring University of Scouting presented by IU Health at IUK at IUK

planetarium, Scouts must still identify the required stars and constellations outside under the natural night sky):

(a) Identify in the sky 10 constellations, at least four of which are in the zodiac.

(b) Identify in the sky eight conspicuous stars, five of which are of magnitude 1 or brighter.

(c) Make two sketches of the Big Dipper or Cassiopeia from direct observation. In one sketch, show the Big Dipper's or Cassiopeia's orientation in the early evening sky. Make another sketch, showing its position several hours later. In both sketches, show the North Star and the horizon. Record the date and time each sketch was made.

(d) Explain what we see when we look at the Milky Way.

5(b) Using the Internet (with your parent or guardian's permission) and other resources, find out when each of the five most visible planets that you identified in requirement 5a will be observable in the evening sky during the next 12 months, then compile this information in the form of a chart or table.

6(b) Sketch the phase and position of the Moon, at the same hour and place, for four nights (or days) within a one-week period by direct observation. Include landmarks on the horizon such as hills, trees, and buildings. Explain the changes you observe.

9. Do ONE of the following:

(a) Identify three career opportunities that would use skills and knowledge in astronomy. Pick one and research the training, education, certification requirements, experience, and expenses associated with entering the field. Research the prospects for employment, starting salary, advancement opportunities and career goals associated with this career. Discuss what you learned with your counselor and whether you might be interested in this career.

(b) Identify how you might use the skills and knowledge in astronomy to pursue a personal hobby. Research the additional training required, expenses, and affiliation with organizations that would help you maximize the enjoyment and benefit you might gain from it. Discuss what you learned with your counselor and share what short-term and long-term goals you might have if you pursued this."
