2026 Fall U of S Cub Scout Classes (Scheduled Classes)

26FC10 9-4 PM
SCHM 226
Kent McKesson
Days: Sa

Arrow of Light Trio with Kent McKesson
Estimations: There are times when we need to be exact, like when building a model or baking from a recipe. When we do not need to be exact, or we only need a general idea of something or its cost, we can estimate. There are some simple ways to estimate things like the time of day or even the height of an object.

High Tech Outdoors: Long ago, tents were made from cotton canvas. They were heavy and were not waterproof. If you put them away wet, they could mold and rot. Today, tents are made using synthetic (human-made) materials that are waterproof, lightweight, breathable, and resistant to mold and rot. Not only has technology improved tents, but it's also given us digital devices that help us navigate, learn, and stay safe.

Into the Woods: Trees and plants play important roles in nature. In this Adventure, you will get to learn about the plants and trees in your community by exploring your area on a walk or visit to a local nature center, tree farm, or park.

If you have ever stood beneath a towering redwood, enjoyed the colors of fall leaves, or watched pine trees swaying in the wind, you know that trees and plants are beautiful. But they are also important to life on Earth. As you go into the woods, you will learn what trees and plants do for us and for animals, and why taking care of them is important to our planet's well-being.
Maximum number of participants: 15
Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

26FC6 9-4 PM
SCHM 225
Michaela Duffy
Days: Sa

Arrow of Light Trio with Michaela Duffy

2026 - University of Scouting @ Purdue University: Saturday at Purdue University Armory

26FC5 9-4 PM
SCHM 117
Ashley Robertson
Days: Sa

Bear Trio with Ashley Robertson
Baloo the Builder: Learning to build things that are useful or fun is an important skill. You might grow up to build houses as a career or models as a hobby. Or you might just learn some skills that will help you in everyday life.

Building materials may include wood, cement, plastic, steel, or a combination of all these things. For this Adventure, we will focus on wood. You will learn about hand tools and how to use them safely. You will learn how to choose the right type of wood for a project and follow project instructions. And before you're finished, you will use your new skills to make two projects from wood.

Forensics Adventure: Everywhere you go, you leave behind clues: fingerprints on your juice glass, DNA on your toothbrush, bits of fabric on your favorite chair, and footprints in your yard. Criminals leave behind clues, too. Forensic scientists study those clues to help law enforcement officers solve crimes.

Forensics is all about using science to answer questions about crimes (and other things that have happened). In this Adventure, you will practice some of the skills of a forensic scientist.

You will analyze a fingerprint, a footprint, the contents of ink, and some mysterious white powder. Grab your magnifying glass and start detecting!

Super Science: Have you ever wondered why the sky is blue or how gravity works or what makes a rainbow? Scientists wonder about those things, too.
Maximum number of participants: 15
Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

26FC14 9-4 PM
SCHM 108
Haliegh Kee
Days: Sa

Lion Trio with Haliegh Kee
Build It Up, Knock It Down: Lions will have fun building a structure on their own and as a team.

Count on Me: Discover basic geometric shapes and their use in arts and crafts.

Gizmos And Gadgets: Lions with their adult partner will build a useful object together and explore the properties of motion and force.
Maximum number of participants: 15
Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

26FC1 9-12 PM
IMST
Ben Carson
Days: Sa

Lion Trio with Imagination Station
Build It Up, Knock It Down: Lions will have fun building a structure on their own and as a team.

Count on Me: Discover basic geometric shapes and their use in arts and crafts.

Gizmos And Gadgets: Lions with their adult partner will build a useful object together and explore the properties of motion and force.
Maximum number of participants: 15
Prerequisites: This class is taught offsite at Imagination Station, 600 N 4th St, Lafayette, IN 47901.

If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.
NOTE: This class is taught offsite at Imagination Station, 600 N 4th St, Lafayette, IN 47901.

Lion Trio with Lindsay Stevens & John Gannt
Build It Up, Knock It Down: Lions will have fun building a structure on their own and as a team.

Count on Me: Discover basic geometric shapes and their use in arts and crafts.

Gizmos And Gadgets: Lions with their adult partner will build a useful object together and explore the properties of motion and force.
Maximum number of participants: 15
Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

26FC3 9-4 PM
IMST
Ben Carson
Days: Sa

Tiger Trio with Imagination Station
Designed by Tiger: Tigers will discover the fundamentals of the engineering process of designing, building, and improving.

Floats and Boats: Discovering what floats and how to make a model boat are the key activities in this Adventure.

Tech All Around: Tigers will identify technology that is common in most homes and discover how technology has improved along with safety rules around technology they come in contact with.
Maximum number of participants: 15
Prerequisites: This class is taught offsite at Imagination Station, 600 N 4th St, Lafayette, IN 47901.

If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.
NOTE: This class is taught offsite at Imagination Station, 600 N 4th St, Lafayette, IN 47901.

26FC11 9-4 PM
SCHM 122
Rob Shroder
Days: Sa

Webelos Quad with Rob Shroder
Earth Rocks: Rocks and minerals are more than just things that lie in the ground. Yes, they help form our planet, but people also use them to create things that make our lives easier. In this Adventure, you'll dig into the world of rocks and minerals and discover some surprises about the science of geology - like how the ground beneath your feet is constantly on the move.

Math On The Trail: In this Adventure, you will learn how to estimate the time it takes you to take a walk. If you know your pace, you can estimate how long it will take you and others to walk any given distance.

Modular Design: Some of your favorite building toys are probably modular. Learning to build using modular design is a good way to conserve resources. In this Adventure, you will gain an understanding of modular design, build using modular-based materials, and practice making directions for others to follow.

Tech On The Trail: Getting outside is a fun part of being a Cub Scout. Using technology outdoors can be an important part of helping you explore the world around you.
Maximum number of participants: 15
Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

2026 - University of Scouting @ Purdue University: Saturday at Purdue University Armory

26FC12 9-4 PM
SCHM 123
Melissa Young-Spillers
Days: Sa

Webelos Trio with Melissa Young-Spillers
Build it: If you visit a lumber store, you'll see rows and rows of all sorts of wood: boards, dowel rods, sheets of plywood, cedar shingles, and more. With some tools and time, a skilled craftsperson can turn that wood into toys, bookcases, or even an entire house. You won't build a house in this Adventure, but you will build a smaller carpentry project. You'll also learn about the tools you could use to build just about anything you can dream up. So, grab your tool belt, and let's get started.

Chef's Knife: The most common use of a knife is in the kitchen. In this Adventure, you will learn the safety rules about using a knife in the kitchen and some basic instructions on how to use a kitchen knife.

This Adventure is required in order for you to use any knife during a Cub Scout activity. Even if you earned the Whittling Adventure as a Bear, you must earn the Chef's Knife Adventure as a Webelos to earn the privilege of using a knife during a Cub Scout activity.

Earth Rocks: Rocks and minerals are more than just things that lie in the ground. Yes, they help form our planet, but people also use them to create things that make our lives easier. In this Adventure, you'll dig into the world of rocks and minerals and discover some surprises about the science of geology - like how the ground beneath your feet is constantly on the move.
Maximum number of participants: 15
Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

26FC8 9-4 PM
SCHM 114
Nicole Landquist
Days: Sa

Wolf Trio with Nicole Landquist & Crystal Thomas
Adventures In Coins: To most people, coins are used to buy things they want or need. But coins can also tell a story. The pictures on United States coins tell a lot about our country's culture and history. In this Adventure, you will get to be a numismatist (noo-MIZmuh-tist). A numismatist is a person who studies coins and money. You'll learn where coins are made and the meaning of their pictures and words.

Air Of The Wolf: It's time to take flight. Do you know the secret to making a paper airplane fly longer or farther? In this Adventure, you will have fun making different types of airplanes and other flying objects.

Finding Your Way: The ancient Greeks went on many adventures. Their writings told of faraway lands and treasures. To explain where their adventures took them, they created geography. Geography is the science of the Earth's surface. Geo means "earth" and grapho means "to write." Maps and compasses are tools that have helped travelers know if they are headed in the right direction.

In this Adventure, you will learn to read maps and use one on a walk. You'll also get to make your own map and use a compass on a scavenger hunt. Just like the ancient Greek explorers, it's time for you to lead the way on another great adventure.
Maximum number of participants: 15
Prerequisites: If this class is full, please contact Elizabeth at 765-452-8253, Mon-Fri 9-5, to be added to a waitlist.

WALC 1132
Tony Zizak
Days: Sa

Adults Can Have Fun Too! Instructed by Tony Zizak, Executive VP, Hoosier Trails Council
Ever wonder how other troops have so many parents involved especially on campouts. You hear how some troops have all kinds of parent involvement on committees, boards of review but your unit is struggling with the same 2-3 adults doing everything? Can you hear the laughing going on in the next campsite and wonder how you can have more of that in your unit? Well, it's
easier than you think. Adults are allowed to have fun in scouts too! Join us in a lively and fun discussion on the art of bringing the fun for adults in your scout units.
PS... this also works for recruiting adults for district and council level events. Some quick and fun steps to immediately take to put your troop on the right path for a strong adult leadership core.
The long play on building out a strong adult leadership core.
Why role assignments are needed
The art of delegation and building of trust
Finally some open discussion and examples of what has worked for others.
Maximum number of participants: 108

American Cultures
The United States is a nation of immigrants. Every person came to America from somewhere else - or their ancestors did - and understanding these various cultural backgrounds can help Scouts to live in harmony with others in our varied and increasingly multicultural society.
Maximum number of participants: 15
Prerequisites: Prerequisites: Proof that Requirement 5 has been completed.

This class is taught offsite at the Black Cultural Center, 1100 Third Street, West Lafayette, IN 47907.
NOTE: This class is taught offsite at the Black Cultural Center, 1100 Third Street, West Lafayette, IN 47907.

ARMS 1028
Melissa Young-Spillers
Days: Su

American Indian Culture
Far different from the stereotypes or common images that are portrayed on film, on television, and in many books and stories, American Indians have many different cultures, languages, religions, styles of dress, and ways of life. To learn about these different groups is to take an exciting journey of discovery in which you will meet some of America's most fascinating peoples.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites:
- Complete #5. Be ready to discuss your experience in class and bring a picture from your visit.
-Sign-up for a tribe at: https://www.signupgenius.com/go/10C0A48ADA72CA5FE3-64657240-tribe#/
- Complete #2. Be prepared to discuss your research with the class. If public speaking is a challenge, a PowerPoint is also acceptable (bring on USB stick with you).

Dr. Kory Cooper
Days: Sa

Archaeology
Archaeologists are detectives who study how people lived in the past. They figure out what happened, when, how, and why. Using the clues that people left behind, they try to understand how and why human culture has changed through time.
Maximum number of participants: 15
Prerequisites: Prerequisites: One of Req 7. Note: Some of the requirements for the Archaeology badge cannot be performed in a single day. During the session, several of the items that would be difficult for scouts to accomplish out on their own will be discussed for ideas on how to complete the badge.

Days: Sa

Dog Care & Pets Sponsored by Ashlie Adsit
The love and interdependence between humans and dogs has endured for thousands of years. Evidence suggests that dogs and humans started relying on each other thousands of years ago. Today, dogs are our coworkers and companions. They assist search-and-rescue teams, law enforcement officers, hunters, farmers, and people with disabilities. They also play with us and keep us company.

Pet ownership is a mixture of fun, excitement, responsibility, commitment, expense, and learning. Besides providing a window into the animal world, owning pets gives us opportunities to participate in activities that strengthen the human-animal bond. Pet ownership teaches us about the responsibility we have to the other living beings on this planet, and pets can be just plain fun.
Maximum number of participants: 6
Prerequisites: Prerequisites:
Requirements 4, 8, 9, and 10 for Dog Care
Requirement1, 2, 3 and one from 4 for Pets.
Dog Care will be offered during the 3 hour session (see prerequisites listed below) . You may also bring your work for the Pets merit badge requirements for me to review at the end of the class discussion. You may elect to take only the Dog Care merit badge or take Dog Care and Pets. Due to the class time provided, doing only Pets is not an option.
For Pets merit badge, you must email me (RNKatter@gmail.com) the type of pet that you will be caring for over the next 4 months and a general plan for that care. Once I reply to your email with approval, you may start the 4 months of recording care. (prerequisite #1).
Bring this log to class (or email prior to class). #2 requirement brig to the class (or email prior to class).
#3 requirement can be approved via email at least 1 week prior to the class. Be prepared to discuss this at the class.
#4 requirement, please bring pictures or video to class (or email prior to class).
For Dog Care merit badge prerequisites: #4 in some type of chart a video of #5 may be presented in class (or emailed prior to class) #8 and bring a written report to class (or email prior to class)
#9 be prepared to discuss during class #10 bring a written report to class (or email to

Drafting
Drafting is a highly refined form of drawing used to communicate ideas to engineers, architects, and craftspeople. In earning this badge, Scouts learn the importance of accuracy and simplicity in developing a drawing that shows precise details in a simple format
Maximum number of participants: 15
Prerequisites: Prerequisites: 3. Produce a computer-aided design (CAD) drawing as it would be used in manufacturing. Fill in all title block information. The CAD drawing may be any one of the following drawing types:
(a) Architectural: Make a scale drawing of an architectural project. The architectural drawing may be a floor plan; electrical, plumbing, or mechanical service plan; elevation plan; or landscaping plan. Use an architect's scale and show dimensions to communicate the actual size of features. Include any important sectional drawings, notes, and considerations necessary for construction.
(b) Mechanical: Make a scale drawing of some mechanical device or interesting object. The mechanical drawing may be of the orthographic or isometric style. Use an engineer's scale and show dimensions to communicate the actual size of features. Include any important sectional drawings, notes, and manufacturing considerations.
(c) Electrical: Draw a simple schematic of a radio or electronic circuit. Properly print a bill of materials including all of the major electrical components used in the circuit. Use standard drawing symbols for the electronic components.

7. Do ONE of the following:
(a) Visit a facility or industry workplace where drafting is part of the business. Ask to see an example of the work that is done there, the different drafting facilities, and the tools used.
(1) Find out how much of the drafting done there is manual and how much is done using CAD. If CAD is used, find out what software is used and how and why it was chosen.
(2) Ask about the drafting services provided. Ask who uses the designs produced in the drafting area and how those designs are used. Discuss how the professionals who perform drafting cooperate with other individuals in the drafting area and other areas of the business.
(3) Ask how important the role of drafting is to producing the end product or service that this business supplies. Find out how drafting contributes to the company's end product or service.
(b) Using resources you find on your own such as at the library and on the Internet (with your parent or guardian's permission), learn more about the drafting trade and discuss the following with your counselor.
(1) The drafting tools used in the past - why and how they were used. Explain which tools are still used today and how their use has changed with the advent of new tools. Discuss which tools are being made obsolete by newer tools in the industry.
(2) Tell what media types were used in the past and how drawings were used, stored, and reproduced. Tell how the advent of CAD has changed the media used, and discuss how these changes affect the storage or reproduction of drawings.
(3) Discuss whether the types of media have changed such that there are new uses the drawings, or other outputs, produced by designers. Briefly discuss how new media types are used in the industry today."

Electricity
Electricity is a powerful and fascinating force of nature. As early as 600 b.c., observers of the physical world suspected that electricity existed but did not have a name for it. In fact, real progress in unraveling the mystery of electricity has come only within the last 250 years.

Orienteering
Orienteering, the use of map and compass to find locations and plan a journey, has been a vital skill for humans for thousands of years. Orienteering is also a recognized sport at the Olympic Games, and thousands of people participate in the sport each year in local clubs and competitions.
Maximum number of participants: 14
Prerequisites: Pre/post-requisites:
2 should be completed as a prerequisite; Scouts should have a good definition before they arrive to campus, which will be asked of them when they get to the event.
7 could be completed as a prerequisite or a post requisite. Competitions can be found on the Orienteering USA website: https://orienteeringusa.org/
9 can be completed either during the event or as a post requisite.
10 will be completed as a post requisite.

The Indiana chapter of Orienteering USA is called Indiana Crossroads Orienteering: https://www.indyo.org/
If your scouts/scout parents are interested, ICO runs short "Summer in the City" competitions in June and July, which are hosted in public parks around the Indy area.

Pioneering
Pioneering-the knowledge of ropes, knots, and splices along with the ability to build rustic structures by lashing together poles and spars-is among the oldest of Scouting's skills. Practicing rope use and completing projects with lashings also allow Scouts to connect with past generations, ancestors who used many of these skills as they sailed the open seas and lived in America's forests and prairies.
Maximum number of participants: 15
Prerequisites: No prerequisites.
This class is taught offsite at Cary Camp; 6286 State Rd. 26 E Lafayette, IN 47905

Psychology Test Lab with Curtis Wiseley
This badge takes you on an exciting journey to understand how psychology impacts everyday life and leadership. You'll learn about famous psychologists and their contributions, create and perform a skit showing psychology in action, explore mental health and resilience, and track your own activities and emotions to see how they shape your well-being. Along the way, you'll practice empathy, reflect on the Scout Oath and Law, and even design your own pledge to inspire hope and support in your community. Finally, dive into career paths in psychology and discover what it takes to succeed in this fascinating field. Expand your mind, build resilience, and make a difference-start your Psychology Badge adventure today!
Maximum number of participants: 15
Prerequisites: Prerequisites: 4a & 7

These test lab requirements are available for Scouts until December 31, 2026. At that time, these requirements will disappear and the surveys will be closed.

What is the Test Lab?
The Scouts BSA Test Lab is an exciting way to help in the development of fun and interesting new topics unique to the Scouts BSA program. The requirements for each badge have the look and feel of merit badges, but instead of a printed pamphlet, you will find links to digital resources to help you complete the requirements.

What to do
You must work with a registered adult volunteer of your choosing. After completion of all requirements, you must take a short survey which will lead you to a certificate of completion.

If enough surveys show Scouts enjoyed these potential new badges, we hope to introduce them as official merit badges in the future. If you complete a Test Lab badge and it becomes an official merit badge, you will be credited with having earned that badge!

Test Lab Rules
1. Any registered adult can work with Scouts on these potential new badges.
2. Badges will have a clearly stated time period by which all requirements must be completed.
3. After the expiration date, the badge will be removed from the Test Lab and the National Council will evaluate if the subject should be added as a new merit badge.
4. When all requirements are finished successfully, a survey will be available to gather opinions on the badge. Scouts will then be able to access the certificate of completion which must be signed and dated by the registered adult they have worked with.
5. Should the badge be approved as a new merit badge, Scouts can be credited as having earned that badge if they present their signed and dated certificate to their unit.
6. Scouts completing the requirements after the expired time period will not be recognized as having earned the badge.

Please send any questions regarding the Scouts BSA Test Lab to testlab@scouting.

Public Health
The field of public health deals with maintaining and monitoring the health of communities, and with the detection, cure, and prevention of health risks and diseases. Although public health is generally seen as a community-oriented service, it actually starts with the individual. From a single individual to the family unit to the smallest isolated rural town to the worldwide global community, one person can influence the health of many.

Scuba Diving (Friday evening, all day Saturday, and Sunday morning - All 1 Class)
Explore a whole new environment under the sea with the Scuba Diving Merit Badge. Be Prepared to handle diving-related injuries and illnesses, learn the importance of diving responsibly, study underwater ecosystems, and wrap it all up by earning your open-water diving certification.

Friday 6-9pm & Sun 9am-12pm @ BHEE 117, On Campus
Saturday 9am-4pm @ West Lafayette High School Pool, Off Campus

Class Size: 16

Event Fee: $25 +
Scuba Diving MB Fee: $350 which includes the equipment rental. When you go to do your check out dives later this year/summer if you use Indy Dive Center. It will be an additional $200 + $75 for gear rental. If you go elsewhere for your check out dives, you will obviously pay your local dive shop.

There will be mandatory zoom meetings before the event and post-requisite work this is necessary to complete the merit badge. These times will be announced later.

After the class in December, Scouts will have met every metric for their badge EXCEPT their 5-6 OPEN WATER CHECK OUT DIVES. They will still need to schedule their final check out dives with their local dive shop in open water, to be able to finish the last part of the requirements. If local to North Central Indiana, they can set them up with Dive Indy as early as May, but we recommend June temperatures for kids.
Additional Fee: $350.00
Maximum number of participants: 16
Prerequisites: This class runs from 6-9pm on Friday evening, 9am-4pm on Saturday, and 9am-12pm on Sunday morning. Scouts who register for this class will be expected to attend all of these sessions/times.

Pre-requisites: Scouts must have earned the Swimming Merit Badge before this class, be medically fit for diving, and be comfortable in deep water. Scouts must bring their own mask for the event. Dive Indy will provide snorkels and fins. They will have an assortment of wet suits but not one for every person.

The most important thing about having their own mask, is that it fit their face well. If they have a leaky mask that does not properly fit their face, they will struggle to get through all the skills. Dive Indy will demonstrate how to fit a mask properly in the virtual orientation so that parent's know what to look for. We will recommend that remote parents visit their local dive shop so that their Scouts can be shown how to fit for a mask.

Virtual Orientation: Nov. 18th 7-8pm
Parents and scouts will have an opportunity to meet virtually with us and learn what all is involved with acquiring the Scuba Merit Badge and Scuba Diver Training. We will discuss the schedule, costs, logistics, and what to expect at orientation. Once students are confirmed, they will be issued online courseware via their online account Scuba Schools International.
(When students create an account with Scuba Schools International, it will prompt that they enter their birthdate, minors will automatically trigger additional entries for a parent to enter their email address to the account. Parents must verify the minors account with that email address before courseware can be issued.)
For this class, students will only be required to provide their own Scuba Mask for class. It is imperative that the mask be tempered glass, and be properly fitted to the students face. All other equipment will be provided for class.

Virtual Classroom Session 1: Tuesday, December 1st, 7-9pm
- Students will meet virtually with us to review and discuss Sections 1-3, from their Academic Courseware in SSI

Virtual Classroom Session 2: Wednesday, December 2nd, 7-9pm
- Students will meet virtually with us to review and discuss Sections 4-6 from their Academic Courseware in SSI

In Person Classroom Session (On Campus): Friday, December 4th (6-9pm, BHEE 117 on Campus)
- Students will refresh their Rescue Skills as outlined in the Scouts Merit Badge Requirements, and begin learning about scuba equipment

In Person Water Session (West Lafayette HS Pool): 8am - 4pm
- We will meet for a day in the water.
8am - 10am - Equipment Overview and Assembly
10am - 11am - Water Fitness Evaluation and Snorkeling Session
11am - 11:45am - Lunch
12pm - 2pm - Confined Water (Part 1) (Hit the water right at 12 noon)
2pm - Break
2:30pm - 4pm - Confined Water (Part 2) and Cleanup

In Person Classroom Session (BHEE 117, On Campus): Sunday, December 6 (9am - 12pm)
- Meet on campus to finish up academic requirements, Underwater Ecology and Careers in Diving
- Finishing final paperwork and SAFE TRAVELS HOME!

***On Saturday, this class is taught offsite at West Lafayette High School Pool 1105 Grant St, West Lafayette, IN 47906. Friday PM and Sunday AM will be on campus in BHEE 117
NOTE: On Saturday, this class is taught offsite at West Lafayette High School Pool 1105 Grant St, West Lafayette, IN 47906. Friday PM and Sunday AM will be on campus in BHEE 117- ALL 1 Class

Computer or traditional animation tasks that will test a Scout's creativity, artistic skills, and storytelling abilities.
Maximum number of participants: 15
Prerequisites: No Prerequisites

26FC9 1-4 PM
SC 231
Anna Goodman
Days: Sa

Architecture
Architecture is not just the special buildings like cathedrals, museums, or sports stadiums we read about or see on television; it is as normal as the homes, places of worship, schools, and shopping malls where we live, worship, work, learn, and play every day. However, architecture is more than just common shelter; building has always satisfied the human need to create something of meaning. Even the simplest form of architecture is a work of art that requires thought and planning.

Days: Sa

Aviation
For most of history, people have dreamed of flying, imagining how it would feel to soar through the sky like an eagle or hover in midair like a hummingbird, to float on unseen currents, free of Earth's constant tug, able to travel great distances and to rise above any obstacle. Today, through aviation, we can not only join the birds but also fly farther, faster, and higher than they ever could.
Maximum number of participants: 20
Prerequisites: Prerequisites: 1B, 5 D and E

This class is taught offsite at Holleman-Niswonger Simulator Center; 1585 Aviation Drive, West Lafayette, IN 47907.
NOTE: This class is taught offsite at Holleman-Niswonger Simulator Center; 1585 Aviation Drive, West Lafayette, IN 47907.

26FC184 1-4 PM
HAGLE
Bruce Knepper
Days: Sa

Bugling with Bruce Knepper
What would summer camp be without the bugle sounding "Reveille" in the morning and "Taps" in the evening? Camp and the bugle go together. The bugle is an ideal instrument for the beginning musician because most of the music uses only four notes. The ability to read music is not necessary, because the tunes are familiar and can be played ear.
Maximum number of participants: 15
Prerequisites: Pre-requisites: For Bugling the applicant must have experience on trumpet, cornet or bugle. Any these three instruments can be used for this merit badge. Realize that one requirement is to serve as troop bugler for 6 months

Days: Sa

Citizenship in the Community With Michael Budd
A nation is a patchwork of communities that differ from each other and may be governed differently. But regardless of how local communities differ, they all have one point in common: In the United States, local government means self-government. Good citizens help to make decisions about their community through their elected local officials.
Maximum number of participants: 10
Prerequisites: Prerequisites: 2A, 2B, 3A, 4, 7 and 8 (present in class)

26FC126 1-4 PM
ARMS 3115
Dave Henderson
Days: Sa

Citizenship in the Nation with Dave Henderson
As Scouts fulfill the requirements for this merit badge, they will learn how to become active citizens are aware of and grateful for their liberties and rights, to participate in their governments and protect their freedom, helping to defend their country and standing up for individual rights on behalf of all its citizens.
Maximum number of participants: 10
Prerequisites: Prerequisites: 2, 3, & 8
We will need a roster of names, home addresses, Unit number, and who are their state and national elected officials (Senators and Representatives), especially if out of our council, so they can address their political representatives of choice with the required letter.

WALC 2087
Hillary Blevins
Days: Sa

Multisport
This badge acts as a natural progression for Scouts who are interested in or have achieved individual badges for Swimming, Cycling, Athletics, or Personal Fitness. The goal is to educate and inspire youth to lead a healthy, physically active lifestyle, understand why this lifestyle is beneficial, and create pathways to encourage participation in triathlon clubs, races, and programs in the future.
Maximum number of participants: 15
Prerequisites: Prerequisites:

4. Earn the Swimming merit badge (only if selecting Option A, C, or D.)

5. Do the following:
(a) With guidance from your counselor, establish a four-week training plan that combines your chosen multisport format to develop proper techniques, gain self-confidence, and increase endurance. Each session should last at least 25 minutes and include a proper warmup before the session and stretching afterward. (MBC NOTE-each

Class Catalog

2026 - University of Scouting @ Purdue University: Saturday at Purdue University Armory

session must be to meet the requirement; a session that is 25 minutes total does not meet the requirement. Aim for 2-3 sessions per week; cross training is allowed.)
(b) Use a chart or other tracking method to monitor your training and development during this period.
(c) Set a personal goal for improvement based on one or more of the following criteria: time, technique, or distance.
(d) At the end of four weeks, discuss your progress with your counselor and tell how your development has affected you mentally and physically.

7. After completing requirements 1-6, do ONE of the following (complete all of the activities on the same day and consecutively) for the multisport focus area you selected in requirement 3(d), including demonstrating a smooth and safe transition between each:
(a) Triathlon (swim 100 m, bike 3 km, and run 1 km)
(b) Duathlon (run 1.5 km, bike 3 km, and run 0.75 km)
(c) Aquathlon (swim 100 m and run 1 km)
(d) Aquabike (swim 100 m and bike 3 km)

8. Do TWO of the following and discuss with your counselor:
(a) Research and identify two ways you can continue participating in multisport after completing this merit badge.
(b) Research an Olympic, Paralympic, or professional triathlete (past or current). Share information on their background in the sport and what inspires you most about this individual.
(c) Demonstrate leadership by starting a training group and educating your peers on the importance of physical activity, nutrition, and the disciplines of multisport.
(d) Sign up for and participate in a sanctioned multisport event in your area.
(e) Volunteer at a local multisport event, running race, biking event, swim meet, or adaptive sporting event.

Psychology Test Lab with Melissa Dotson
This badge takes you on an exciting journey to understand how psychology impacts everyday life and leadership. You'll learn about famous psychologists and their contributions, create and perform a skit showing psychology in action, explore mental health and resilience, and track your own activities and emotions to see how they shape your well-being. Along the way, you'll practice empathy, reflect on the Scout Oath and Law, and even design your own pledge to inspire hope and support in your community. Finally, dive into career paths in psychology and discover what it takes to succeed in this fascinating field. Expand your mind, build resilience, and make a difference-start your Psychology Badge adventure today!
Maximum number of participants: 15
Prerequisites: Prerequisites: 4a & 7

These test lab requirements are available for Scouts until December 31, 2026. At that time, these requirements will disappear and the surveys will be closed.

What is the Test Lab?
The Scouts BSA Test Lab is an exciting way to help in the development of fun and interesting new topics unique to the Scouts BSA program. The requirements for each badge have the look and feel of merit badges, but instead of a printed pamphlet, you will find links to digital resources to help you complete the requirements.

What to do
You must work with a registered adult volunteer of your choosing. After completion of all requirements, you must take a short survey which will lead you to a certificate of completion.

If enough surveys show Scouts enjoyed these potential new badges, we hope to introduce them as official merit badges in the future. If you complete a Test Lab badge and it becomes an official merit badge, you will be credited with having earned that badge!

Test Lab Rules
1. Any registered adult can work with Scouts on these potential new badges.
2. Badges will have a clearly stated time period by which all requirements must be completed.
3. After the expiration date, the badge will be removed from the Test Lab and the National Council will evaluate if the subject should be added as a new merit badge.
4. When all requirements are finished successfully, a survey will be available to gather opinions on the badge. Scouts will then be able to access the certificate of completion which must be signed and dated by the registered adult they have worked with.
5. Should the badge be approved as a new merit badge, Scouts can be credited as having earned that badge if they present their signed and dated certificate to their unit.
6. Scouts completing the requirements after the expired time period will not be recognized as having earned the badge.

Backpacking & Hiking Combo
Earning the Backpacking merit badge will be demanding but rewarding. Scouts will learn what equipment to carry on their backs and what knowledge to have in their heads. In addition, Scouts will discover how to protect the environment by traveling and camping without leaving a trace. By mastering the basics of backpacking, Scouts will develop an even deeper respect for the outdoors.

Hiking is a terrific way to keep your body and mind in top shape, both now and for a lifetime. Walking packs power into your legs and makes your heart and lungs healthy and strong. Exploring the outdoors challenges you with discoveries and new ideas. Your senses will improve as you use your eyes and ears to gather information along the way.
Additional Fee: $10.00
Maximum number of participants: 20
Prerequisites: Prerequisites:

Backpacking: Ideally Requirements 9-11 are to be completed after the workshop, however they may be done in advance as a pre-requisites provided they fulfill the requirements as written. Scouts should complete Requirements 6b, 8b, 8c, 8d prior to the workshop.

Hiking: Ideally Requirements 3 and 4 are to be completed after the workshop, however they may be done in advance as a pre-requisites.

BHEE 222
Cathy Mitchell
Days: Fr

Citizenship in the World with Cathy Mitchell
Scouts who earn the Citizenship in the World merit badge will discover that they are already citizens of the world. How good a world citizen each person is depends on his willingness to understand and appreciate the values, traditions, and concerns of people in other countries.
Additional Fee: $10.00
Maximum number of participants: 10
Prerequisites: Prerequisites: 3, 4, & 7
*This Merit Badge is recommended for Scouts who are at least First Class or 13 years old.

Director Haan Museum of Indiana Art
Days: Fr

Collections with The Haan Museum of Indiana Art
Discover how collecting can be an educational and financially rewarding pastime with the Collections Merit Badge. Scouts will prepare a brief written report, give a detailed description, and explain the development of their collection while demonstrating the knowledge of preserving and displaying their most prized possessions.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites:1, 5b, & 7

This class is taught offsite at The Haan Museum of Indiana Art, 920 State St, Lafayette, IN 47905.

Days: Fr

Cybersecurity with Brad Thompson - Sponsored by Sledgehammer Infosystems
The Cybersecurity Merit Badge equips Scouts with essential knowledge and skills to navigate and protect the digital world. Scouts learn about online safety, ethical behavior, cyber threats, and how to defend against them using tools like firewalls, antivirus software, and strong passwords. They explore encryption, connected devices, and the risks of public Wi-Fi, while also practicing safe habits like updating software and backing up data. Through hands-on activities, Scouts investigate real-world cyber incidents, participate in cybersecurity challenges, and explore career opportunities in the field.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites: 1A, complete one of the options for requirement 4E & bring notes to discuss with the group, and complete one of the options for requirement 8.

Cycling (Friday PM)
Since 1911, hundreds of thousands of Scouts have made the most of their two-wheel adventures by earning the Cycling merit badge. Whether you just got your first bicycle or have been cycling for years, you will learn more about your bike and what it can do by working on the requirements for this badge.

Days: Fr

Family Life with Melissa Dotson (Friday PM or Sunday AM)
The family is the basic unit of society and is important to both individuals and communities. The world is rapidly changing, making today's society much more complex than ever before. As Scouts earn this merit badge, they will realize why it is important to know more about family life and how to strengthen their families.
Additional Fee: $10.00
Maximum number of participants: 10
Prerequisites: Prerequisites: 3-5, 6B 1-7

26FC38 6-9 PM
ABE 1164
Roger Tormoehlen
Days: Fr

Farm Mechanics (Friday PM)
From the mattock and hoe to the horse and mule, the cotton gin and reaper, the tractor and air seeder - this is the story of farm equipment. Today, most farms are mechanized and farmers can do most of their own maintenance work and make the adjustments needed on their many intricate farm implements.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisite: 5

26FC41 6-9 PM
FORS 217
Brooke Lakin
Days: Fr

Fish and Wildlife Management & Mammal Study (Friday PM)
Wildlife management is the science and art of managing the wildlife - both animals and fish - with which we share our planet. Maintaining the proper balance and the dynamics that go with it requires humankind's attention. We use this stewardship tool to help minimize or eradicate the possibility of extinction of any given species. We want our descendants to have the opportunity to experience the same animal diversity that we now enjoy.

A mammal may weigh as little as 1/12 ounce, as do some shrews, or as much as 150 tons, like the blue whale. It may spring, waddle, swim, or even fly. But if it has milk for its young, has hair of some kind, is relatively intelligent, and has warm blood, then it is a mammal.
Additional Fee: $10.00
Maximum number of participants: 30
Prerequisites: Prerequisites:
Fish & Wildlife: 5 & 6
Mammal Study: 3 & 5

Days: Fr

Fishing (Friday PM AND Sunday AM - Both Sessions Required to Complete Merit Badge
In Scouting for Boys, Baden-Powell offers this advice: "Every Scout ought to be able to fish in order to get food for himself. A tenderfoot [beginner] who starved on the bank of a river full of fish would look very silly, yet it might happen to one who had never learned to catch fish."
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites TBD
The classroom portion of this class will be held on Friday evening, classroom BHEE 224. The fishing portion will be conducted on Sunday morning at a separate location.
Sunday fishing will be at Dean Brad's Pond
Address: 3435 SR28 East, Lafayette, IN, 47909

There is access to a bathroom and it's a private pond so the scout's parents can be there helping even without a fishing license.

5 Scouts per session: Session to be assigned on Friday.

Session 1 - 8AM to 9:30AM
8AM to 9AM - fish
9AM to 9:30AM - clean and cook fish

Session 2 - 9AM to 10:30AM
9AM to 10AM - fish
10AM to 10:30AM - clean and cook the fish

Session 3 - 10AM to 11:30AM-ish
10AM to 11AM - fish
11AM to 11:30AM - clean and cook the fish

Prerequisite - Scouts must bring with them to class to get credit

#7 -. Obtain and review the regulations affecting gamefishing where you live. Explain why they were adopted and what is accomplished by following them.

Pre or post requirements to NOT have to fish on Sunday to finish the merit badge.

Note: For those who will be fishing with us on Sunday December 6th to finish the merit badge.

I can not guarantee or promise that every scout will be able to catch a fish. It is called Fishing NOT Catching. But, we will do our best to see if we can make it happen.

Safety Note: The Sunday fishing part will be canceled if the pond is frozen over or if temperatures are to low.

Video Submission
#3 - Demonstrate the proper use of two different types of fishing equipment

Photo Submission
#9 - Catch one fish and identify it.

Photos Submission
#10 - If regulations and health concerns permit, clean and cook a fish you have caught. If you are unable to catch a fish for eating, acquire a fish, clean the fish you acquired, and cook the fish you acquired.

There will be a Google form or link provided for the Scouts to submit their videos and/or photos for requirements 3, 9, & 10.

Note: It is not required that you eat the fish.

Game Design (Friday PM or Sunday AM)
Games also come in almost every shape, size, format, and flavor imaginable. Games can be fast-paced, slow, or anything in between. Some are competitive. Some are cooperative. They may be for individuals, small groups, or thousands of players at a time. They might take seconds to complete or last for years. However you slice it, everyone has played games, and games help make us who we are.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: No Prerequisites
This class is taught offsite at Imagination Station, 600 N 4th St, Lafayette, IN 47901.

Journalism (Friday PM)
One thing is for sure about journalism: It is never boring. For a reporter, almost every day is different from the last. One day you might interview the mayor of the city, the next day report on a car accident, and the day after that preview a new movie.
Additional Fee: $10.00
Maximum number of participants: 17
Prerequisites: No Prerequisites

26FC189 6-9 PM
DHS
Jay Dennison
Days: Fr

Music with Jay Dennison
The history of music is rich and exciting. Through the ages, new music has been created by people who learned from tradition, then explored and innovated. All the great music has not yet been written. Today, the possibilities for creating new music are limitless.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites: Knowledge of music reading is required
Requirement 3 all four options require work done before class
a. Presentation to class
b. Have a paper or notes that can be turned in or presented to class
c. Proof of participation in a school musical organization

Days: Fr

Plant Science
Plant scientists use their curiosity and knowledge to develop questions about the world of plants. Then they try to answer those questions with further observations and experiments in the laboratory and in the field. To earn this merit badge, Scouts will explore three of the most important plant science specialties: agronomy, horticulture, and field botany.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites: 5, 6 and 8

26FC193 6-9 PM
PFEN G077
Lauren Toepp
Days: Fr

Reptile and Amphibian Study (Friday PM))
Kids always have been interested in snakes, turtles, lizards, and alligators, as well as frogs and salamanders. Developing knowledge about these captivating creatures leads to an appreciation for all native wildlife; understanding the life cycle of a reptile or amphibian and keeping one as a pet can be a good introduction to natural history; and knowing about venomous species can help Scouts to be prepared to help in case of an emergency.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites: 8

26FC97 6-9 PM
BHEE 226
Steve Bowman
Days: Fr

Scouting Heritage - Sponsored by Summitt Bectel Reserve (Friday PM)
Introduces youth to the history of the Boy Scouts of America. They'll learn it all - from Scouting's beginnings under Lord Baden-Powell to the history of their own troop.
Additional Fee: $10.00
Maximum number of participants: 15
Prerequisites: Prerequisites: 5, 6, & 8

26FC139 6-9 PM
BRNG B260
Kevin Bump
Days: Fr

Sustainability (Friday PM or Sunday AM)
While earning this badge, Scouts learn about climate change, species extinction, resource extraction, green chemistry, recycling, and zero-waste manufacturing!
Additional Fee: $10.00
Maximum number of participants: 10
Prerequisites: Prerequisites: 8 (a) and (c)
