

NUCLEAR SCIENCE MERIT BADGE DAY

at

RIVER BEND NUCLEAR PLANT

Saturday October 10, 2026
9:00 am - 4:00 pm

Earn the Nuclear Science Merit Badge by learning the history, uses, and hazards of nuclear science and nuclear energy generation. Nuclear professionals will lead Scouts in interactive exercises and opportunities to learn about nuclear science and nuclear energy. The program is offered at Entergy's River Bend Station Training Center in St. Francisville, LA.

The Nuclear Science merit badge lets Scouts learn about this exciting field at the cutting edge of science, and to learn about America's largest baseload carbon-free electricity source.

Scouts will:

- complete the Nuclear Science Merit Badge
- learn about an important source of carbon-free electric power
- learn about nuclear radiation and use a radiation survey meter
- visit an operating nuclear plant simulator

Lunch and the Nuclear Science Merit Badge Book are provided.

REGISTRATION: Limited to 66 Scouts;

Deadline: Friday October 2. \$10 Registration fee.

Register starting on August 1, 2026:

<https://www.scoutingevent.com/211-NuclearScienceMBD>

Scout Leaders and adults are welcome to attend with their Troop;

Adults should also register at the same link above.

There is no adult registration Fee.

Sponsored by Entergy and the Louisiana Nuclear Society

DIRECTIONS TO:

RIVER BEND ENERGY EDUCATION CENTER
5485 U.S. HIGHWAY 61
ST. FRANCISVILLE, LA 70775

The River Bend Energy Education Center is a two story red brick building located on U.S. Highway 61 about 20 miles north of the I-110 intersection with U.S. 61 in north Baton Rouge. This is 3 miles south of St. Francisville.

Turn at the traffic light and park in the parking lot behind the building.

Check-in is between 8:30 am and 9:00 am in the side lobby.
