CAMP PRACTICE - Leave no trace and reduce our waste Pack it in pack it out

WATER BOTTLE & PERSONAL MESS KIT

We will have ice-water stations around camp; your Pack may be bringing some coolers as well for your campsite.

As we strive to reduce waste at camp and implement more Scouting America "leave no trace" practices, we are transitioning to using personal mess kits and dishwashing systems at our events.

We will use a three-pot method for cleaning your dishes after your meals.
There will be multiple sets (to clean your dishes) next to the **Cub Program Building**, where you will be served.

You can bring plates, silverware, and refillable water bottles from home. (Frisbees work great)

Key Locations:

P is designated parking lot,

Registration Table- report to check-in for your schedule, bracelets, t-shirts, etc. You will Receive your campsite placement with instructions for dropping off your gear and where to Park.
