

Cub Scouts Super Nova Science fair for Webelos

What requirements can you get done at the science fair?

If have a Nova Mentor already than we will be doing the following.

1. Participate in a science project or experiment in your classroom or school. Discuss this activity with your mentor.
2. Do ONE of the following:
 - A. Visit with someone who works in a STEM-related career. Discuss what you learned with your mentor.
 - B. Learn about a career that depends on knowledge about science, technology, engineering, or mathematics. Discuss what you learned with your mentor.
3. Under the direct supervision of your mentor, do an experiment that shows how the scientific method (or scientific process) is used. Prepare a short report on the results of your experiment for your mentor.
4. Participate in a Nova- or other STEM-related activity in your Webelos Scout den or pack meeting that is conducted by a Boy Scout or Venturer who is working on his or her Supernova award. If this is not possible, participate in another Nova- or STEM-related activity in your den or pack meeting.

If you do not have a mentor we can work on setting you up with one to get the other requirements completed.

All kids who show up will get a patch and the top 3 will get trophies.
