

## Cub Scouts Super Nova Science fair for Wolf and Bear.

What requirements can you get done at the science fair?

If have a Nova Mentor already than we will be doing the following.

- Participate in a science project or experiment in your classroom or school OR do a special science project approved by your teacher. Discuss this activity with your mentor.
- Do ONE of the following:
  - A. Visit with someone who works in a STEM-related career. Discuss what you learned with your mentor.
  - B. Learn about a career that depends on knowledge about science, technology, engineering, or mathematics. Discuss what you learned with your mentor.
- Learn about the scientific method (or scientific process). Discuss this with your mentor, and include a simple demonstration to show what you learned.
- Participate in a Nova- or other STEM-related activity in your Cub Scout den or pack meeting that is conducted by a Boy Scout or Venturer who is working on his or her Supernova award. If this is not possible, participate in another Nova- or STEM-related activity in your den or pack meeting

If you do not have a mentor we can work on setting you up with one to get the other requirements completed.

All kids who show up will get a patch and the top 3 will get trophies.
