

Huron Trails District Tech & Trades Merit Badge Day

SCOUTS: Please remember a merit badge is to be EARNED. To earn the badge, the scout must do the work and must be actively engaged and participating in the workshop they are attending. Failure to be "present and attentive" during the session means a scout receives a partial for the content. All scouts are asked to fully READ the merit badge content pamphlets for their respective merit badges so that they are able to answer questions during the session. Remember "Be prepared!"

The merit badge counselors will be facilitating the sessions to the CURRENT merit badge standards. Scouts that have already started these merit badges may participate.

Below are the pre-reqs for each merit badge. If things change, scouts will be emailed by the event coordinator or the merit badge counselor!

AUTOMOTIVE MAINTENANCE

NOTE: Closed-toe shoes are required. Class A not required; please wear clothes you are comfortable with getting dirty.

- *If possible, bring the service manual to your family car!*
- *Scouts should be familiar with or watch the videos:*
