Morning Session 09:00-12:00 PM

Build It (Elective, Webelos- 4th Grade 2024)
If you visit a lumber store, you'll see rows and rows of all sorts of wood: boards, dowel rods, sheets of plywood, cedar shingles, and more. With some tools and time, a skilled craftsperson can turn that wood into toys, bookcases, or even an entire house. You won't build a house in this Adventure, but you will build a smaller carpentry project. You'll also learn about the tools you could use to build just about anything you can dream up. So, grab your tool belt, and let's get started.
Maximum number of participants: 25

Web11
Afternoon Session 01:00-04:00 PM

Champions for Nature AOL (Elective, Arrow of Light- 5th Grade 2024)
About half of the land on Earth is being used for some type of agriculture. Agriculture is often in the form of a farm. How we farm, either growing crops or raising animals for food, has an impact on our planet. The country of India has the most land mass used for agriculture. The United States is second. Combined, these two countries account for 22% of the land on the planet being used for agriculture. How the United States grows, distributes, and uses food has an impact on the world. In this Adventure, you will explore food and ways to conserve it, and the resources used to produce food.
Maximum number of participants: 25
Prerequisites: 6.Note.Note.

Web5
Afternoon Session 01:00-04:00 PM

Earth Rocks (Elective, Webelos- 4th Grade)
Rocks and minerals are more than just things that lie in the ground. Yes, they help form our planet, but people also use them to create things that make our lives easier. In this Adventure, you'll dig into the world of rocks and minerals and discover some surprises about the science of geology - like how the ground beneath your feet is constantly on the move.
Maximum number of participants: 25
Prerequisites: 4.Note.Note.

Web18
Afternoon Session 01:00-04:00 PM
Morning Session 09:00-12:00 PM

Engineer (Elective, Arrow of Light- 5th Grade 2024) (unknown version)
Lots of people have great ideas: flying to the moon, tunneling under rivers, building robots that walk and talk, or making triple-loop rollercoasters. Engineers turn those ideas into reality. They use science, math, and creative thinking to improve people's lives. In this Adventure, you will learn what engineers do. Even better, you can do some engineering projects of your own. So put on your thinking cap and get ready to think like an engineer!
Maximum number of participants: 25

Web10
Morning Session 09:00-12:00 PM

First Aid (Required, Arrow of Light- 5th Grade 2024)
In this Adventure, you will learn how to protect yourself and how to help others when they have been hurt. The skills you learn in this Adventure could help someone in trouble or even save a life. Your patrol may have a trained professional like an emergency medical technician (EMT), medical doctor, or registered nurse provide instruction for this Adventure.
Maximum number of participants: 25
Prerequisites: 1.Note.Note.; 5.Note.Note.; 7.Note.Note.

Morning Session 09:00-12:00 PM

Modular Design (Elective, Webelos- 4th Grade 2024)
Some of your favorite building toys are probably modular. Learning to build using modular design is a good way to conserve resources. In this Adventure, you will gain an understanding of modular design, build using modular-based materials, and practice making directions for others to follow.
Maximum number of participants: 25
Prerequisites: 6.
