Who doesn't enjoy the excitement of a rocket lifting off toward space? The sight, the vibration, the anticipation as we wait for the ***BOOM*** of the rockets boosters!

Red, White and BOOM Rocket Camp will explore the history and science of rockets including the lift, thrust and flight. And of course we'll be making and launching our own rockets.

Scouts in grades K-5 (fall 2022) are welcome to attend this camp and are encouraged to bring a friend.

Cost for this morning of "out of this world" fun is $25 per youth and adults attend free.

Registration is open until Friday, July 1, 2022, through the twinvalleybsa.org website.
