

OPERATION ICICLE 2023

Scouts BSA

What is Operation Icicle?

Operation icicle is the greatest, most challenging, and fun weekend of Scouting in the winter that you will ever have! The weekend is an opportunity for Scouts to learn leadership, communication, teamwork, work on advancements, and of course have fun!

The program is limited to a set number who of Scouts, so registration is limited. The smaller group does have an advantage in offering a program that is more complex and will better serve each individual Scout.

The program is designed to achieve several goals related to character development. We will also teach winter survival skills and help Scouts advance along their way to Eagle. Goals will be accomplished through the use of the patrol method. One Scout is chosen to act as Senior Patrol leader. The Scouts tackle all challenges, complete daily chores, and participate in program as patrols.

Scouts will have the opportunity to work on one of these listed merit badges: Citizenship in the Community, Citizenship in the Nation, Citizenship in the World, Communication, Personal Management, Emergency Preparedness, Nature, and Wilderness Survival. Also, the Trail to First Class will be part of the curriculum.
