

MEDICAL PERMISSION SLIP

National Youth Leadership Training is conducted by volunteers formed into provisional troops/crews. These troops/crews operate as a model for all troops/crews in the Greater St. Louis Area Council. As in your Scout's home

troop/crew, sometimes it is necessary to provide medical attention for minor aches and pains. For that purpose, we have listed several medications below for you to choose from should the need arise to give them to your Son/Daughter. We recommend that you use the weight based chart on the back of this form as a guide on which dosage to select. It is also necessary that we have permission to dispense the doctor prescribed medication that you have listed below.

Scout's/Crew Member's Name _____ Weight (lbs.) _____

He/she is in good physical condition at the present time. He/she may receive emergency medical treatment at my expense. I also give my permission for the Adult Leaders of his/her NYLT Troop/Crew to dispense the listed medications to my Son/Daughter. All of these medications and listed strengths are over the counter medications.

Please check all that apply.

- Tylenol (acetaminophen) 325mg tablets:
- Tums Tablets (calcium carbonate)
- Ibuprofen/Advil/Motrin 200mg tablets
- Benadryl Cream (diphenhydramine)
- Medicated Powder
- Hydrocortisone Ointment/Cream
- Imodium AD (loperamide)
- Benadryl (diphenhydramine) 25mg tablets

In addition, my Son/Daughter is taking the following prescription medication that is provided for you in their original containers.
