Anticipate:

Mitigate & Prevent:

Respond:

Describe the appropriate safety gear and clothing that should be used when working with robotics.

- b. Discuss first aid and prevention for the types of injuries that could occur while participating in robotics activities and competitions, including cuts, eye injuries, and burns (chemical or heat).

Cuts,:

Eye injuries:

Chemical Burns:

Heat burns:

2. **Robotics industry.** Discuss the following with your counselor:

a. The kinds of things robots can do and how robots are best used today.

What they can do:

How they are best used:

b. The similarities and differences between remote-control vehicles, telerobots, and autonomous robots.

Similarities:

Differences:

c. Three different methods robots can use to move themselves other than wheels or tracks.

- 1.
- 2.
- 3.

Describe when it would be appropriate to use each method.

1.	
2.	
3.	

3. **General knowledge.** Discuss with your counselor three of the five major fields of robotics (human-robot interface, mobility, manipulation, programming, sensors) and their importance to robotics development. Discuss either the three fields as they relate to a single robot system OR talk about each field in general.

Human-robot interface

Mobility

Manipulation

Programming

5. **Demonstrate.** Do the following:

- a. Demonstrate for your counselor the robot you built in requirement 4.
- b. Share your robot engineering notebook with your counselor. Talk about how well your robot accomplished the task, the improvements you would make in your next design, and what you learned about the design process.

How well your robot accomplished the task:

Improvements you would make:

What you learned:

6. **Competitions.** Do ONE of the following.

- a. Attend a robotics competition and report to your counselor what you saw and learned about the competition and how teams are organized and managed.

What you saw:

What you learned:

How teams are organized and managed.

- b. Learn about three youth robotics competitions. Tell your counselor about these, including the type of competition, time commitment, age of the participants, and how many teams are involved.

Competition 1:

Type of competition:

Time commitment:

Age of the participants:

How many teams are involved:

Competition 2:

Type of competition:

Time commitment:

Age of the participants:

How many teams are involved:

Competition 3:

Type of competition:	
Time commitment:	
Age of the participants:	
How many teams are involved:	

7. **Careers.** Name three career opportunities in robotics.

1.	
2.	
3.	

Pick one and find out the education, training, and experience required for this profession.

**Career:**

**Education:**

**Training:**

**Experience:**

Discuss this with your counselor, and explain why this profession might interest you.

When working on merit badges, Scouts and Scouters should be aware of some vital information in the current edition of the *Guide to Advancement* (BSA publication 33088). Important excerpts from that publication can be downloaded from <http://usscouts.org/advance/docs/GTA-Excerpts-meritbadges.pdf>. You can download a complete copy of the *Guide to Advancement* from <http://www.scouting.org/filestore/pdf/33088.pdf>.
