

**IT'S TIME FOR  
YOUR FAMILY TO...**

**GET OUT AND SCOUT**

**This summer, encourage your family to disconnect from life and reconnect with each other. There's no better way to do that than exploring the great outdoors together!**

**Studies show children who play outside**

- actively engage creativity and imagination
- interact more with others and get along better
- gain a sense of calmness and a better ability to focus
- build stronger awareness, reasoning and observation
- develop more advanced motor skills, such as agility, balance and coordination
- are more likely to maintain a healthier lifestyle and develop a love of nature!

**Scouting is the place where your family can share these adventures together! Not sure if the program is a right fit? Join us this summer at the fun activities listed on the back and just see for yourself!**
