This new payment model will be available for both new Scouting families as well as returning families. When a family registers for Scouting, they will have the choice to pay up-front from the time of joining through the end of the calendar year *or* to pay a joining fee up-front and subscribe to monthly payments for the remaining balance. By not requiring the full registration amount at time of registration, we hope to lessen the "sticker shock" that families sometimes experience. We also hope to better serve more youth with quality Scouting programs across the Midlands.

In response to customer demand, the Mid-America Council is excited to announce a new way for families to pay for Scouting! In addition to the traditional payment model, in which families pay for an entire year of Scouting up-front at charter renewal, the council will begin offering a subscription model starting in August 2020.
