

Zorinsky Saturday Camp **2021**

Saturday, July 24th
9AM-4PM
Lake Zorinsky

PROGRAM GUIDE

Get ready to have a BLAST at Day Camp!

Cub Scout Day Camp is a 1-day outdoor experience for youth. Zorinsky Day Camp will run from 9:00 a.m. -4:00 p.m. on Saturday. A Camp and Program Director with a staff of volunteers conduct the Out of this World activities. Cub Scout Day Camp:

- Promotes year-round Cub Scout program
- Encourages Cub Scouts to benefit and grow with a good outdoor experience
- Strengthens the operation of Dens with teamwork, leadership, and Cub Scout skills
- Achieves Scouting's ideals of character development, citizenship, and personal fitness

Out of this World is our theme and activities will include investigating science, creative projects, academics, nature, physical fitness, skits and songs. We will promote Scouting and the Scout spirit in our activities while we slide in a bit of education! But the Scouts will just call it tons of FUN! The program is designed for all registered Cub Scouts (youth who have completed kindergarten but not yet completed the fifth grade)

All registered Cub Scouts are eligible to attend day camp. Twilight camp uses the same ranks to identify age groups as your pack.

- Tigers are youth who have completed kindergarten;

An adult partner must attend with each Tiger Cub

- Wolves have completed the first grade
- Bears have completed second grade
- Webelos have completed third grade
- Arrow of Light Scouts have completed fourth grade

TIGER Partners: It is a National BSA requirement that all Tiger Scouts must have an adult partner with them at all activities. The adult partner is expected to participate.

The volunteers and staff at day camp are committed to providing the best possible program for your Scouts. Their focus is on running a safe, fun and educational camp full of Scout spirit.

Day Camp Program

This year we will be traveling around outer space; visiting each planet to learn about what makes it unique and have some fun while we are at it!

STATIONS

Mercury Rock Wall – Scouts will have the opportunity to climb to the stars on our bouldering wall!

Venus – Did you know Venus is hotter than Mercury?! It is! Scouts will learn about why while making some “Solar S’mores”

Earth Water Games – Various space-themed versions of water games will help your Scout burn off some energy!

Mars Volcano – Scouts will love erupting their own volcano while learning about the huge one on Mars!

Jupiter Hurricane in a Jar – Scouts will make a hurricane in a jar and learn about the hurricanes on Jupiter!

Saturn Telescope – Scouts will make a telescope to look into the sky! Is it a bird? A Plane? Use it to look up day or night!

Uranus Exploring the Ice Giants – Scouts will discuss the freezing atmospheres of Neptune & Uranus through liquid nitrogen demonstrations.

Neptune Ice Cream – Who doesn’t love to make ice cream in a bag? Scouts will have a chance to celebrate the coldest planet by enjoying ice cream!
