## **Emergency Information**

### **Camp Emergencies**

**Staff, attending Parents/Guardians, and Campers will review emergency procedures at the beginning of each day of camp. In the unlikely event of an emergency, a signal will sound and staff will follow guidelines and practiced procedures.**

### **Lost Camper**

**In case of a lost camper, you will hear an emergency sound. At this point, everyone in camp should stop what they are doing, gather in a seated circle, and perform a name check on every person in the group, including adults. Once attendance is taken, campers can sing a song or play a game but we ask that they continue to stay seated until the Camp Director gives the all clear signal.**

### **Weather**

**Every effort will be made, consistent with BSA's Guide to Safe Scouting guidelines, to offer a full outdoor program each day. Please make sure campers are dressed appropriately for the weather, whether it is for rain or for heat. Campers should dress in layers to either keep them warm or be able to cool off. If there are rainstorms we will be moving into rooms in the church for "rainy day activities". These are backup activities that we can do inside if the weather prevents us from outdoor activities. If there is lighting and thunder, we will be moving inside the church immediately. We will make an announcement over a speaker to enter the building.**

- ❖ **Please be sure to provide your own cell phone numbers as emergency numbers in your camp registration online forms and you will automatically be added to receive texts through Remind. This is the fastest and easiest way to stay informed on camp weather situations.**
