MERIT BADGE COLLEGE

NORTH DAKOTA STATE COLLEGE OF SCIENCE

APRIL 11, 2026

Join Scouts from across the council at NDSCS for a full day of advancement, hands-on learning, and new experiences at the state's best technical school. This event is open to Cub Scouts of all ranks and Scouts BSA youth, giving them the chance to work directly with experienced instructors while exploring a wide range of subjects. From traditional Scouting skills to specialized topics like welding, farm mechanics, shooting sports, and even Scuba or snorkeling, Merit Badge College offers opportunities that go beyond the typical troop or pack meeting and helps Scouts grow skills they can use for years to come.

MORE INFORMATION

Scouts may earn up to two merit badges or adventures in one day, with classes offered in both the morning and afternoon and some sessions running all day for more in-depth instruction. Lunch in the NDSCS dining center, program supplies, and an event patch are included with registration. Cub Scouts will rotate through activities by grade level and stay together throughout the day, while Scouts BSA can focus on individual merit badge advancement, including completing requirements with proper preparation and pre-requisites.
