How to Re-access a Registration in Black Pug

IF you created an account and used that account to create the registration, you can:

- Log into Black Pug https://scoutingevent.com/438/Login/
- Hover over Lookup in the upper right-hand corner, then click on Lookup Registration
- A pop-up box will appear, enter the email that you used to create the registration, then click send email
- Check your email, then find the registration that you are looking for in the email

If you did not create an account, the only two ways to access it is:

1. Through the original event confirmation email, it would have come from the email NO-REPLY@247SCOUTING.COM or
2. Have an admin for the event manually email the link.
