COLLEGE OF COMMISSIONER SCIENCE

Commissioner College is one of the best ways for commissioners to get continuing education in their critical role. It is modeled after a traditional college, with course requirements leading to “degrees” in Commissioner Science. This year we are offering courses for bachelor’s degree requiring 7 courses (at least five BCS courses). We are also offering a master’s degree requiring 14 total courses (at least seven MCS courses and the seven courses from the bachelor’s degree).
