3

(a) Look at using a flight simulator software package, set a course and fly the headings you have established with a successful take-off and landing. Be ready to understand how to fly the simulator.

Resource: [Taking Off and Landing The Simulator At JuneauAnchorage](#)

- *If you want to practice before the class (recommended)*

Resource: [Download a FREE Flight Simulator Onto your Phone](#)

Resource: [How to Download The Juneau Software](#)

4. Airport Operations. Do ONE of the following:

- (a) Visit an airport. After the visit, report on how the facilities are used, how runways are numbered, and how runways are determined to be "active." **In the interest of time – this is the requirement that will be discussed in class – if a different option was completed, please email the Merit Badge Counselor.**

Merit Badge Information Sheet [MBIS]
November 14, 2026

- (b) Visit a Federal Aviation Administration facility: Airport Traffic Control Tower (ATCT), Terminal Radar Approach Control (TRACON), Air Route Traffic Control Center (ARTCC), or Flight Standards District Office (FSDO). Report on the operation and your impressions of the facility.

Resource: FAA's Facility Locator (website)

- (c) Visit a military aviation facility. Learn how that facility supports defense and/or civilian activities. Report on the operation and your impressions of the facility.

Resource: Identify a Nearby Military Aviation Facility (website)

- (d) Visit an aviation museum or attend an air show. Report on your impressions of the museum or show, and what you learned from the experience.

Resources: Smithsonian Affiliations (website)

Air Shows (website)

Military Air Shows (website)

Recreational Aviation Events (website)

Find a Museum (website)

5.

- (a) Write a brief summary of explaining the following: the student pilot, the recreational pilot, the remote pilot, and the private pilot certificates.

Resources:

- Student Pilot

- Recreational Pilot

- Remote Pilot

- Private Pilot

- (b) Write a brief summary Describing the benefits of the instrument rating.

Resources:

- Benefits of instrument Rating

- (c) Write a brief summary Explaining the following: the commercial pilot certificate, the airline transport pilot certificate, and certified flight

Class Work:
*list all
requirements
which
will be
completed in
class*

1.
 - (a) Define "aircraft." Describe four kinds of aircraft today, and their typical uses.
 - (c) Explain the difference between a fixed wing and a rotary wing aircraft, and the benefits of each.
Resource: [Airplane or Helicopter—Which Should You Choose? \(video\)](#)
 - (e) Using a model aircraft, describe the four forces that act on an aircraft in flight.
Resources: Video [Four Forces Acting on an Aircraft](#)
 - (f) Explain how an airfoil generates lift, specifically noting Bernoulli's principle.
Resource: Video [How a Wing Creates Lift](#)

Merit Badge Information Sheet [MBIS]
November 14, 2026

(g) Identify and describe the aerodynamic control surfaces on the aircraft of your choice, and explain how they operate to control its attitude and direction of flight.

Resource: Video [Aircraft Control Surfaces Explained](#)

**Use of “Online”
Workbook:**

Not supported – the site that provided them stopped updating them last year

Merit Badge Booklet:
