On Friday night, you may proceed directly to your campsite. Please limit the number of vehicles to drop off gear as much as you can, and clear vehicles out of the site and into the parking lot as soon as possible, otherwise you will block roadways for other units trying to drop off. There is space for you to keep a trailer at your campsite, but do not keep cars there. Staff will be around to help you set up your campsites - all cots and tents are in the site sheds.

To reduce problems with wildlife, please take your garbage to the dumpster at the end of each day and once your shed is clear, consider storing food in your shed or trailer. Do not store food or other animal attractants in tents!
