CATALOOCHEE DISTRICT
2026 FALL CAMPOREE – SURVIVOR: Halloween Edition

“SURVIVOR: Halloween Edition”

Patrols enter the wilderness, face a series of survival challenges, earn points, and compete to become the Ultimate Survivor Patrol.

The Halloween theme should add atmosphere and storytelling without interfering with Scout skills or safety. Think survival camp meets haunted woods rather than a frightening haunted house.

Camporee Objectives

The camporee is designed to help Scouts practice:

- Navigation and map-and-compass skills
- First-aid assessment and treatment
- Safe problem-solving and resource management
- Basic pioneering and shelter construction
- Fire-building and fire safety
- Leadership and teamwork
- Communication and decision-making under pressure

The goal is not simply to finish first. Patrols should demonstrate Scout skills, leadership, teamwork, and safe practices.

The Survivor Story

Opening Scenario

“Your patrol has been dropped into the wilderness on Halloween night. A storm has moved in, your supplies are limited, and strange things are happening in the woods.

Your patrol must navigate the territory, treat injuries, build shelter, secure food, and establish a safe fire. Every challenge earns Survivor Points.

Work together. Think before you act. Use your Scout skills.

At the end of the night, only one patrol will claim the title:

THE ULTIMATE SURVIVOR!”

Patrol System

Each patrol should:

- ★ Have a patrol leader.
- ★ Stay together unless a station specifically directs otherwise.
- ★ Carry its Survivor Scorecard.
- ★ Arrive at each station on time.
- ★ Follow all safety instructions.
- ★ Leave each station clean and ready for the next patrol.

Recommended Patrol Size

Approximately 6–10 Scouts works well.

If patrols are larger, divide the challenge into smaller teams so every Scout has a meaningful job.

Events:

Station 1 — “Lost in the Haunted Woods” Orienteering Challenge

Station 2 — “The Walking Wounded” First-Aid Challenge

Station 3 — “The Witch's Trap Line” Trapping / Survival Skills

Station 4 — “The Haunted Shelter”

Station 5 — “The Witch's Cauldron”

Final Challenge — “The Last Survivor”
