

Sasquatch Expedition - The ESCAPE!

Register for this session when you register for University of Scouting - Space is limited!

The hike was going great; that was until Ranger Evan, your guide, tripped and fell. You and your friends used Scout First Aid skills to immobilize the injury. But Ranger Evan was still bleeding. A few more steps and you will be back at camp. Oh No! Camp has been ransacked. Supplies are damaged or missing. You peer through the bushes to see a very large footprint! Is the Legend of Sasquatch, aka Bigfoot, real? You need to find and fix the radio for rescue. Will you be able to save Ranger Evan?
