

A New merit badge class has been added for April and May, and the end of the summer. It's one of the most exciting and challenging merit badges-Personal Management! Please look over our schedule below; sign-up today because space is limited! LIMIT is the first 24 Scouts that register.

In response to COVID-19, the Glacier's Edge Council, B.S.A. will be offering the Personal Management online merit badge class starting Saturday, April 18th, 2020 to any scout(s) involved in a Scouts BSA program. We believe that this will help support our youth and their families in these programs as our local communities have suspended all school and / or other group programs with no more than ten individuals present at one time.

Each session will consist of one hour of instruction each day for four different sessions (Mostly Saturdays but could be flexible based on demand) The scout(s) should receive a link to log into their class the Friday evening prior to their first class but no less than 24 hours before the start of the class.

Scouts will use these links each day to receive live instruction from Mr. Jason Mascitti of Troop 16 and guest presenters related to those important topics. Scouts will have various requirements to complete each week before the next session.

Mr. Mascitti will always have two deep leadership; however, this is fantastic information that even parents may enjoy! They are all welcome to audit the class.

Overall, we believe that these online merit badge-based programs will make a great educational supplement to ongoing online efforts being made by our current public, private, and charter schools throughout our impacted region.

Blue cards will be provided digitally to the scout after the badge work is complete and only after the merit badge counselor has verified that the individual scout has completed all listed requirements under that specific merit badge (no need to worry about ScoutBook).
