

First Aid MB Prerequisites

As merit badge counselors we can require nothing more and nothing less than the written requirements for the merit badge. For the purposes of this merit badge clinic and staying within the allotted time for the day, we are requiring participants to have completed all first aid rank requirements for both 1st and 2nd class rank requirements. This is not an addition to the requirements for the Merit Badge, this is a requirement for eligibility to participate in this clinic. Please let us know if you have any questions.

- Be familiar with the information required to complete First Aid Merit badge. Reading the workbook is a great way to do this.
- Workbooks are not required to complete the badge, however they are a great way to stay organized. Scouts will need a way to organize the information needed to complete this Merit Badge.
- Bring a personal first aid kit as outlined in the First Aid Merit Badge pamphlet
- Bring documentation showing they have completed the first aid requirements for Tenderfoot, and Second Class. A note from your Scoutmaster or a Scout handbook with the requirements signed off will satisfy this requirement.
