CURIOUS ABOUT HOW THE BUSINESS WORLD REALLY WORKS?

Join Mercer, an HR consulting organization, for a three-session, hands-on career experience where you'll explore what happens inside real companies and try out consulting for yourself — no experience needed.

What you'll do:

- Learn how different departments (like HR, Sales, Marketing, Finance, and IT) help companies run
- Discover how HR consultants support organizations
- Meet and talk with professionals about their career paths, work, and advice
- Work with a team to solve a real consulting challenge for a brand you already know

If you're interested in business, problem-solving, leadership, or just exploring what's possible for your future — this program is for you.
