American Heritage, Scouting Heritage

Every Scout swears to an oath that includes duty to his country. A better understanding of American heritage, the ways in which the past has led to our present nation, is key to truly knowing what it means to be an American.

Introduces Scouts to the history of the Boy Scouts of America. They'll learn it all - from Scouting's beginnings under Lord Baden-Powell to the history of their own troop.

Maximum number of participants: 20

Prerequisites: *Complete req. 5 & 6 outside of camp (Scouting Heritage)**2 MB's in one class (American and Scouting Heritage)

WRY112 8:30-10 AM
Archery Range Shelter
Connor Foster

Archery

Archery is a fun way for Scouts to exercise minds as well as bodies, developing a steady hand, a good eye, and a disciplined mind. This merit badge can provide a thorough introduction to those who are new to the bow and arrow - but even for the experienced archer, earning the badge can help to increase the understanding and appreciation of archery.

Additional Fee: \$10.00

Maximum number of participants: 16

Prerequisites: *This MB are not recommended for 1st yr Scouts because of strenuous physical activity or advanced topics of discussion.

Astronomy & Space Exploration

In learning about astronomy, Scouts study how activities in space affect our own planet and bear witness to the wonders of the night sky: the nebulae, or giant clouds of gas and dust where new stars are born; old stars dying and exploding; meteor showers and shooting stars; the moon, planets, and a dazzling array of stars.

Space is mysterious. We explore space for many reasons, not least because we don't know what is out there, it is vast, and humans are full of curiosity. Each time we send explorers into space, we learn something we didn't know before. We discover a little more of what is there.

Additional Fee: \$15.00

Maximum number of participants: 20

Prerequisites: "Sky Studies" is a fusion of Astronomy and Space Exploration. Fee for Rocket Kits. Requires night observations.

Warehouse
Brendan Garretson

Automotive Maintenance

Modern automobiles are important to many aspects of American life. Those who service automobiles must understand each principle, and how these principles interact to provide smooth, efficient performance. Owners of cars also benefit by understanding how their vehicles operate. This enables them to understand why certain periodic maintenance is required to keep their vehicles in tip-top shape.

Maximum number of participants: 20

Backpacking, Camping

Earning the Backpacking merit badge will be demanding but rewarding. Scouts will learn what equipment to carry on their backs and what knowledge to have in their heads. In addition, Scouts will discover how to protect the environment by traveling and camping without leaving a trace. By mastering the basics of backpacking, Scouts will develop an even deeper respect for the outdoors.

Camping is one of the best-known methods of the Scouting movement. When he founded the Scouting movement in the early 1900s, Robert Baden-Powell encouraged

Basketry & Leatherwork

Basketry is a handy skill for a Scout. A basket can be a sturdy companion on campouts, carrying clothes snugly and efficiently, holding potatoes and corn for roasting over a campfire, or carrying the day's fishing catch back to camp for dinner. Baskets and basket-weaving projects also make great gifts for family and friends.

Scouts who complete the requirements to earn the Leatherwork merit badge will explore leather's history and its endless uses. They will learn to make a useful leather item using the same types of raw materials that our ancestors used; be challenged to master skills like hand-stitching, lacing, and braiding.; and learn how to preserve and protect leather items so they will last a lifetime and beyond.

Additional Fee: \$40.00

Maximum number of participants: 15

Prerequisites: MB Kit fee of \$20 each

First Aid

First aid - caring for injured or ill persons until they can receive professional medical care - is an important skill for every Scout. With some knowledge of first aid, a Scout can provide immediate care and help to someone who is hurt or who becomes ill. First aid can help prevent infection and serious loss of blood. It could even save a limb or a life.

Fish and Wildlife Management

Wildlife management is the science and art of managing the wildlife - both animals and fish - with which we share our planet. Maintaining the proper balance and the dynamics that go with it requires humankind's attention. We use this stewardship tool to help minimize or eradicate the possibility of extinction of any given species. We want our descendants to have the opportunity to experience the same animal diversity that we now enjoy.

Fishing, Fly Fishing

In Scouting for Boys, Baden-Powell offers this advice: "Every Scout ought to be able to fish in order to get food for himself. A tenderfoot [beginner] who starved on the bank of a river full of fish would look very silly, yet it might happen to one who had never learned to catch fish."

Fly-fishing is a specialized form of fishing that combines skill and artistry. Because it is so rich with tradition, it is a passion for millions of people. The beauty of the water, the solitude, and the skills that the sport requires have made fly-fishing very important in the lives of many notable people.

Maximum number of participants: 20

Prerequisites: *Bring fishing equipment if you have it. 17yo+ must have a Texas Fishing License.

Forestry, Pulp and Paper

In working through the Forestry merit badge requirements, Scouts will explore the remarkable complexity of a forest and identify many species of trees and plants and the roles they play in a forest's life cycle. They will also discover some of the resources forests provide to humans and come to understand that people have a very large part to play in sustaining the health of forests.

Here's an astonishing number to digest. Each person in the United States uses about 700 pounds of paper each year. Paper is everywhere in our lives. Every year in the United States, more than 2 billion individual books, 24 billion newspapers, and 350 million magazines are published on paper.

Maximum number of participants: 20

Hammer Patrol w/ Fire Safety, Painting, Public Speaking

The ability to use fire safely is essential to human survival. By earning this merit badge, Scouts will learn to use fire safely and responsibly, how to prevent home fires, and how to handle fire safely, as well as burn prevention, and camping safety.

This merit badge provides an opportunity for Scouts to learn more about painting, including both the artistic and practical aspects.

A lot happens during the course of every person's life and your ability to communicate your feelings and ideas is the best way to connect to the larger world. Even if you haven't stood at a podium on the stage and find the whole idea scary, sooner or later, someone is going to ask you to get up and say a few words. If you are prepared, it won't be scary. It can even be fun.

Maximum number of participants: 40

WRY182 1:30-2:30 PM
Collier Building
Connor Wardle

Insect & Mammal Study

In earning the Insect Study merit badge, Scouts will glance into the strange and fascinating world of the insect. There, they will meet tiny creatures with tremendous strength and speed, see insects that undergo startling changes in habits and form as they grow, and learn how insects see, hear, taste, smell, and feel the world around them.

A mammal may weigh as little as 1/12 ounce, as do some shrews, or as much as 150 tons, like the blue whale. It may spring, waddle, swim, or even fly. But if it has milk for its young, has hair of some kind, is relatively intelligent, and has warm blood, then it is a mammal.

Maximum number of participants: 20

Prerequisites: *Insect Study complete req 7 before camp (raise larva) and begin req 4 (Scrapbook) - otherwise cannot be completed at camp.

BSA Lifeguard

To be trained as a BSA Lifeguard, you must successfully complete the course as outlined in the BSA Lifeguard Instructor Manual and demonstrate the ability to perform each item specified in the following requirements:

Additional Fee: \$12.50

Minimum Age: 15

Prerequisites: Safe Swim Defense & Safety Afloat

WRAC7 8:30-10 AM
Health Lodge Training Room
Gary Wilson

CPR

Are you prepared to help in a real and very common crisis-one that could happen at any time? Do you know how to correctly perform cardiopulmonary resuscitation (CPR)? Heart disease is the No. 1 cause of death in the United States. More than 700,000 people had a heart attack last year alone. Because half of those heart attack victims developed symptoms outside of a hospital environment, it is important for everyone to know CPR and automated external defibrillator (AED) techniques. Understanding how to identify and respond early when someone is suspected of having a heart attack or going into cardiac arrest in the outdoors is particularly valuable when advanced medical care may be delayed.

Additional Fee: \$15.00

Minimum Age: 15

Maximum number of participants: 10

Prerequisites: Starts 8am

NOTE: Starts at 8am

WRAC8 8:30-11:30 AM

Safe Swim Defense

BSA groups shall use Safe Swim Defense for all swimming activities. Adult leaders supervising a swimming activity must have completed Safe Swim Defense training within the previous two years. Safe Swim Defense standards apply at backyard, hotel, apartment, and public pools; at established waterfront swim areas such as beaches at state parks and U.S. Army Corps of Engineers lakes; and at all temporary swimming areas such as a lake, river, or ocean. Safe Swim Defense does not apply to boating or water activities such as waterskiing or swamped boat drills that are covered by Safety Afloat guidelines. Safe Swim Defense applies to other non-swimming activities whenever participants enter water over knee deep or when submersion is likely, for example, when fording a stream, seining for bait, or constructing a bridge as a pioneering project. Snorkeling in open water requires each participant to have demonstrated knowledge and skills equivalent to those for Snorkeling BSA in addition to following Safe Swim Defense.

Minimum Age: 18

WRAC3 8:30-4:30 PM
Landreth Lodge
Thomas Neel

Safe Swim Defense and Swimming & Water Rescue

Training for BSA Swimming & Water Rescue provides BSA leaders with information and skills to prevent, recognize, and respond to swimming emergencies during unit swimming activities. It expands the awareness instruction provided by Safe Swim Defense training. Persons completing the training should be better able to assess their preparation to supervise unit swimming events. The BSA recommends that at least one person with this training is present to assist with supervision whenever a unit swims at a location that does not provide lifeguards. This training is open to any registered adult leader, Scout, Venturer, or Explorer who is age 15 or older. A council approved instructor must directly supervise all training. The course takes approximately eight hours and is valid for three years. Although the training is consistent with training provided professional lifeguards, the Swimming & Water Rescue course is not a lifeguard training course and is not a substitute for BSA Lifeguard training for summer camp aquatics staff. On the other hand, this course addresses important information that may not be covered in generic lifeguard training programs such as: preventative measures, including the buddy system and swim classification tests; how to set up a safe swim area in diverse situations; the use of non-standard rescue equipment; and emergency action plans in remote settings. Therefore, BSA leaders with lifeguard training from other agencies are encouraged to complete this course prior to supervising unit swim activities in remote settings. A 'challenge' option is provided to foster cross-training of individuals with training from other agencies. Adult and youth first aid training, including CPR, is an important safety consideration for all Scouting activities, not just swimming. First aid training is not included in the Swimming & Water Rescue course with the expectation the leader has addressed this need separately, as noted in the course material and on the training card.

Minimum Age: 15

WRAC11 8:30-10:30 AM
Landreth Lodge
Thomas Neel

Safety Afloat

BSA groups shall use Safety Afloat for all boating activities. Adult leaders supervising activities afloat must have completed Safety Afloat training within the previous two years. Cub Scout activities afloat are limited to council, district, pack, or den events that do not include moving water or float trips (expeditions). Safety Afloat standards apply to the use of canoes, kayaks, rowboats, rafts, floating tubes, sailboats, motorboats (including waterskiing), and other small craft, but do not apply to transportation on large commercial vessels such as ferries and cruise ships.

Minimum Age: 18

Safety Afloat and Paddle Craft Safety

Float trips are popular Boy Scout, Venturing, and Sea Scout activities. Safety Afloat awareness training provides guidelines for safe float trips and is required of unit leaders, but does not provide the skill training mandated by those guidelines. BSA Paddle Craft Safety expands Safety Afloat training to include the skills, as well as the knowledge, needed for a unit leader to confidently supervise canoeing or kayaking excursions. The program contains four separate modules. Basic canoeing and basic kayaking options cover flat water skills. River canoeing and river kayaking options build on the basic programs to include moving water. Persons completing the training should be better prepared to supervise paddle craft activities. The training is open to any registered adult leader, Scout, Venturer, Sea Scout, or Explorer who is age 15 or older. The training must be conducted by a council approved instructor and is valid for three years. Each module takes approximately eight hours. Adult and youth first aid training, including CPR, is an important safety consideration for all Scouting activities, not just boating. First aid training is not included in the Paddle Craft Safety course with the expectation that the leader has addressed that need separately, as noted in the course material and on the training card. Float trips that last overnight also require camping skills. Since Scouting emphasizes outdoor skills in many programs, only select items specific to canoeing or kayaking are reviewed in the course material.
