

# Camp Gadgets Idea Book

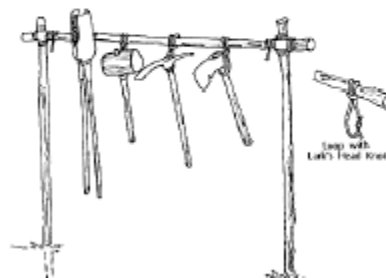

Hi! I am glad you are here! That means you have interest in Pioneering and building camp gadgets!! Below you will see several sketches meant to be a jumping point for ideas around your camp. Thanks to the resources brought to me by Mr Brent Edson, we now have access to a “new to me” booklet showcasing some of the best idea sketches I have ever seen. Please, use this guide, build some things within it, then let your imagination go wild with the fun things you can do! Good luck on your adventure to find more resources out there as well!

Please do remember to consult the [Guide to Safe Scouting](#), should you have any safety concerns or questions! Other than that, build on scout!!
