

Pre-Event and Arrival Medical Screening Checklist

This is a tool to assist unit leaders & families in identifying potentially communicable diseases in advance of event participation. The intent of this checklist is to review with each participant their current health status both before departure and upon arrival at the event. Every unit / family must conduct a pre-event medical screening prior to traveling to Wallwood Boy Scouts Reservation to be collected upon arrival. Upon arrival at Wallwood Boy Scouts Reservation, each unit / family will be required to have their temperatures taken. Any unit / family arriving with one or more persons who are symptomatic of illness will be sent home, as a unit / family, for testing and/or treatment. Any unit / family with one or more persons who are sick will not be permitted to remain onsite. Wallwood Boy Scouts Reservation has a First Aid facility, it does not have the capacity for the long-term treatment of a communicable diseases.

Program / Event _____

Unit # _____

Family Name _____

Have you been in contact with anyone who has had COVID-19 in the past 14 days?

Have you or anyone you know been in close contact with or traveled on a cruise ship, internationally, or to an area with a known communicable disease outbreak in the last 14 days?

name
Yes/No
Y / N

/	/	/	/

If the answer is "yes" to either of the questions above—the participant MUST stay home.

Are you in a higher risk category as defined by the CDC guidelines?

If the answer is "yes" to this question, we recommend that you stay at home. Should you choose to participate, you must have approval from your healthcare provider then proceed with the symptom checklist and decision requirements below.

--	--	--	--

If the answers to the above 3 questions have been "No", proceed to the symptom checklist and decision requirements below.

Has the participant had any of the following symptoms in the last 24 hours?

- Fever (100.4 F or greater)
- Vomiting
- Diarrhea
- Shortness of breath
- New or worsening dry cough
- Flu-like symptoms
- Loss of taste or smell

If the participant has experienced any one of the symptoms to the left—he or she MUST stay home.

Temperature

Has the participant had any of the following symptoms in the last 24 hours?

- Unexplained extreme fatigue or muscle aches
- Rash
- Cough
- Sore throat
- Open sore

If the participant has any two (or more) of these symptoms—he or she MUST stay home. If the participant has one of these symptoms, discuss any limitations and restrictions and consider having him or her stay home.
