Diversity, Equity & Inclusion

Scouting America promotes a culture where each youth, volunteer, and employee feels a sense of belonging and builds communities where every person feels respected and valued. Leading by example and encouraging each other to live by the values expressed by the Scout Oath and Scout Law, we welcome families of all backgrounds to help prepare young people to serve as successful members and leaders of our nation's increasingly diverse communities.

Sustainability and Waste Reduction

As leaders in Scouting, it's our responsibility to set an example for environmental stewardship. At this spring's Charlemagne District IOLS course, we will focus on eliminating unnecessary waste, particularly single-use plastic bottles and disposable paper products. Participants are strongly encouraged to bring reusable water bottles, mess kits, and durable gear to reduce our environmental impact. By embracing sustainable practices, we not only protect the outdoors we love, but also teach our Scouts the value of conservation and personal responsibility, core principles of the Scouting movement

4.4 Ground fires

Fires will be allowed only in the approved fire pit. Leave no Trace principles must be used.

4.5 Use of liquid fuel

The safety of our students must be the prime consideration in the use of liquid fuels.
