

CAMP LA-NO-CHE REOPENING BRIEF

Camp La-No-Che is happy to announce that we are officially OPEN for unit-level camping in small groups! In the spirit of having a safe and responsible reopening, and due to continuing concern of potential transmission of Covid-19, Camp La-No-Che and the Central Florida Council are taking every precaution possible. Campsites and limited program opportunities are now available to reserve on a first-come-first served basis. Here are some key considerations when planning a visit or overnight:

PRE-CAMP AND ARRIVAL:

- 1) Medical Pre-Screening and Acceptance of Risk: Prior to DEPARTING FOR CAMP, each camper (youth and adult) will be required to fill out and sign both a Pre-Event Medical Screening Form and an Acceptance of Risk form; for campers under 18 years of age, each form must also be signed by a parent/guardian.
 - a. Campers (youth and adult) who do NOT have both of these forms to turn in upon arrival will be turned away and not be allowed entry into camp. Follow the instructions on the form fully.
 - b. Parents and other adults who may be providing driving services only (dropping off and/or picking up) must also complete this paperwork.
- 2) BSA Annual Health and Medical Record: All campers (youth and adult) must also have in their possession a current copy of their BSA Annual Health and Medical History Record. Campers staying longer than 72 hours on camp property must have Part C with a physician's signature.
- 3) Things to Bring: While camp will supply adequate required cleaning and sanitation supplies for your campsite, we recommend your unit consider bringing personal supply of the following:
 - a. Hand Sanitizer
 - b. Soap
 - c. Disinfecting Wipes
 - d. Face Coverings/Masks (one for each camper, youth and adult)
 - e. Gloves (for cleaning/disinfecting)
 - f. Folding Camp Chairs (helpful for comfort during outdoor distancing)
 - g. Clean personal Water Bottle for each camper
- 4) Check-In Process:
 - a. When reserving camp, you will commit to an arrival time frame so that we can be prepared for you. When you arrive at the closed/locked gate, follow the instructions on the sign and a Camp Staff member will be dispatched to check you in.
 - b. All campers (youth and adult) must have their temperatures checked with a no-touch thermometer; temp checks are administered by Camp Staff and are required for entry into camp. A wristband will be issued to each camper at this time.

- i. Any camper (youth or adult) who show a temperature of 100.4 or above will not be allowed entry and will be sent home. This may impact others in the vehicle, so please PLAN AHEAD and DO NOT allow sick youth or adults to travel.
 - ii. Parents and other adults who may be providing driving services only (dropping off and/or picking up) must also have their temperatures checked.
- c. All campers (youth and adult) must submit all required paperwork (see above) for review.
 - i. For groups staying more than 72-hours at Camp, BSA Health and Medical Records will be collected and kept on file at the Health Lodge.
 - ii. For groups staying less than 72-hours, BSA Health and Medical Records will be checked by Camp Staff but returned to Unit leadership.
- d. After completing the above, campers will be allowed into camp and directed to their assigned site.
 - i. Parents and other adults who may be providing driving services only may drive to the site to drop off campers but must depart within one hour of entry into camp. Follow the departure procedure posted on the gate.

AT CAMP:

- 1) Each morning, all campers (youth and adult) must have their temperatures rechecked at an assigned location; this location will be communicated at check-in.
 - a. Any camper (youth or adult) who show a temperature of 100.4 or above will be sent to a quarantine site at Camp and arrangements will be made for their immediate removal from Camp. This may impact others in the vehicle/unit, so please PLAN AHEAD and DO NOT allow sick youth or adults to travel.
 - b. After a camper is rechecked, they will receive a new wristband for that day.
- 2) Face Coverings: The use of masks/face coverings, while not required, are strongly recommended in buildings and when basic physical distancing is not possible. Units are asked to manage their own campers in regard to the safe and responsible use of face coverings where appropriate.
- 3) Physical/Social Distancing: We recommend that your Unit maintain responsible social/physical distancing while at camp. Follow basic CDC guidelines.
 - a. Units should refrain from socializing with other Units using camp.
 - b. Campers should stay together as a group at all times with proper adult supervision.
- 4) Cleanliness: All campers are asked to remember that "A Scout is Clean."
 - a. Wash your hands for at least 20 seconds with soap and water after using the restroom, before and after meals and activities, and periodically throughout the day.
 - b. Daily showers for all campers are also strongly recommended.
 - c. Units should plan on developing a plan to keep their campsite and bathroom clean; daily cleaning at a minimum.
 - d. Help us keep Camp clean! If you find something that needs our attention, please tell us ASAP!
- 5) Facilities and Program: Although camp is open and available for use, some facilities and program services will have limited or no availability at this time. Current limits include:

- a. Dining Hall & Services: During the months of June and July, access to the dining hall and related food service will be available in a limited capacity and by pre-arrangement only.
 - b. Merit Badge Programs: Staffing does not currently allow us to provide Merit Badge instruction at the same level as we would during Summer Camp. Opportunities may be available for basic study of Merit Badges on an individual basis.
 - c. Shooting Sports: All ranges are available for reservation at reduced capacity.
 - d. Aquatics: All aquatics programs are available for reservation at reduced capacity.
 - e. Adventure Camp: All adventure camp programs are available for reservation at reduced capacity.
 - f. Other programs/facilities: In general, other camp facilities (Rotary Lodge, activity shelters, etc.) are NOT available in June/July for Unit usage.
 - g. Camp Trading Post: The Trading Post will not be open in general, though arrangements can be made for large groups staying for more than 72-hours.
- 6) Camp Access: The camp gate will remain closed and locked during your stay. Based on current CDC and local/federal guidance, campers are discouraged from leaving camp property after check in.
- a. In the event of an emergency, follow the departure instructions posted at the gate.
 - b. Visitors without prearrangement with Camp Management are prohibited.
 - c. Your Unit's departure will be coordinated with Camp Staff members (see below).

DEPARTURE AND POST-CAMP:

- 1) A Check-Out time will be set when you reserve your campsite.
- 2) Cleaning: All Units are required to thoroughly clean/disinfect their campsite and bathroom before checking out. Necessary supplies will be provided by camp.
 - a. Clear guidance will be provided by Camp Management upon arrival.
- 3) A Camp Staff member will arrange a walkthrough of your site before approving you to depart. Any area of camp needing additional attention must be corrected before anyone may leave.
- 4) Once the site meets expectations, your Unit will meet a Camp Staff member at the gate and be released. Any paperwork to be returned will be returned at this time.
- 5) Unit leadership should monitor the health of all campers, youth and adults, for 14 days following their departure.
 - a. Any camper showing symptoms should be reported to Camp leadership ASAP.
