

Hello!

2020 will mark the first summer of the Council's new Camping Progression Plan having our Scouts journey across our properties with Ransburg serving as our Resident Camp for Scouts BSA units. As this progression plan gets implemented we will be making upgrades and enhancements to our facility infrastructure and program areas to deliver the highest quality experience to your Scouts.

We have identified making upgrades to our campsites at Ransburg a priority and will begin redefining campsites along Ridge 1 prior to the 2020 season. The changes that will be made are still being finalized including the new names for all of our campsites and shifting the capacities of those sites. **We feel that in order to make sure your unit is most informed of the plan and vision that we delay opening the 2020 registration process until the camp season starts.**

We will work with units at Ransburg to show the site locations and capacities and help our units within camp to confirm their 2020 sites prior to their departure from camp. We will also be working with our units camping at Krietenstein to secure their campsites in 2020 at Ransburg prior to their departure from camp.

Thank you,

**Tucker LaPrade** | Director of Camping and Program
