

The Wood Badge Experience

Wood Badge has two parts in the Boy Scouts of America: the practical part and the application period. Both must be completed to receive the two Wood Badge wooden beads that are worn on a leather thong around the neck.

The practical portion of the course is a six day experience to demonstrate as practically as possible the aims and methods of Scouting. The course is a multifaceted presentation of leadership skills, organizational tools, and participatory activities based on the best Scouting traditions and the latest in team development theory. Participants will enjoy the fellowship of learning alongside many other Scouters, and along the way will have a great deal of fun.

The application portion of Wood Badge is a period of up to 18 months during which the participants practice and demonstrate a working knowledge of the leadership principles presented during the course. This is accomplished by use of the Wood Badge "ticket". The ticket represents a participants' commitment to complete a set of personal goals related to their Scouting position. These goals will significantly strengthen the program in which the participant is involved.

At the end of the practical portion each participant is assigned a counselor who serves as a resource, an evaluator and a Scouting friend. When they determine that the new skills are understood and can be applied to their Scouting position, a recommendation is made for the Wood Badge to be awarded.

Wood Badge 2019

Course C3-178-19

In 1911 Baden-Powell took the first steps in training Scouting's adult leaders by organizing a series of lectures for Scouters. He made great strides in the years that followed, culminating with the establishment of Wood Badge training in 1919. Wood Badge recipients now number more than 100,000 and can be found in all corners of the world.

Wood Badge participants have the opportunity to:

- Understand Scouting as a family of interrelated, value-based programs that provide age-appropriate activities for youth.
- Recognize contemporary leadership concepts and discover how they are relevant to the Scouting movement.
- Apply the skills learned as a member of a successful working team.
- Revitalize their commitment to Scouting by sharing in an inspirational experience that provides Scouting with renewed leadership.

Many Scouters consider Wood Badge to be a peak experience of their Scouting career. It has served as a source of training and inspiration to thousands.

Who may attend Wood Badge?

Wood Badge for the 21st Century is for all leaders in the Boy Scouts of America. It has been developed for Cub Scout, Boy Scout, and Venturing leaders, as well as council and district leaders. The course content and leadership principles introduced apply to Scouters of all leadership positions and will provide a common foundation of leadership skills to be used throughout all program areas. If you have previously attended Wood Badge, you are invited to attend again.

Qualifications:

Each Scouter invited to participate in Wood Badge training must be a registered member of the Boy Scouts of America and must have completed the basic training courses for their Scouting position. Each participant must successfully complete a BSA Annual Health and Medical Record-parts A, B, and C. The forms are available on the BSA website (www.scouting.org) and are included in the Participant Guide you will receive when you register.
