

LIONS

& Tigers

Kindergarten & 1st Grade

We may not be able to be together for camp this summer, but that doesn't mean we have to stay inside!

Do you see what I see? Let's get outside and look around! What is the world like right under your feet as you jump, run, bike, and play in your own backyard? Did you know there is a whole community of living things surviving right under your feet? Take a journey with us as we go down under.....

down under your own feet!

Once you have finished that fun hike, let's look up at the sky and see what we can see! Using the pocket sized bird guide, see which birds live in your neighborhood! Where do they live? What do their eggs look like?
