**Going from Green to Deep Green - Sustainability, Scouting, and You
ADULT/YOUTH- NEW!**

For more than a century, the BSA has been an acknowledged leader in outdoor education and environmental stewardship. It has taught generations of Scouts to take nothing but pictures and leave nothing but footprints. For decades, the Outdoor Code has stood alongside the Scout Oath and Scout Law as a guide for interacting with the world around us. In its second century of service, the BSA has moved from an emphasis on conservation to embrace sustainability.

This interactive course will introduce you to the three pillars of Sustainability: People, Planet, and Prosperity. It will show how these pillars are combined to create "development that meets the needs of the present without compromising the ability of future generations to meet their own needs". Never heard of sustainability within the BSA? By the end of this presentation you will realize sustainability has been a part of your everyday life for years. You just knew it by another name. Get ready to be informed and have some fun. Sign up for this class.
